共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- In a colossal glass rail interchange, platform boarding passes are granted only to travelers who contract to cultivate and maintain the train life-support gardens during their journey.

规则与制度

- Passengers must maintain active crop maintenance contracts to traverse express turnstiles.
- Uncertified germplasm transfers outside the Canopy Seed Reserve Bank constitute botanical contraband.
- Union picket cordons at Hydroponic Trough Staging Bay require formal mediation before forceful clearance.

活动与压力

- Labor Contract Clearance Loop · Players audit passenger crop vitality logs and issue boarding scrip at turnstiles to regulate platform queue density and keep oxygen reserves stable. · High platform queue density risks concourse unrest and automated gate lockouts.
- Blight Containment and Seed Requisition Loop · Agronomists identify canopy rot, requisition high-yield germplasm from the reserve bank, and treat affected foliage to restore canopy crop health. · Declining canopy crop vitality forces environmental dampeners to reduce long-haul departures.

人物与目标

- Vaelen Cruz · Chief Turnstile Arbiter — Enforce Platform Dispatch Syndicate boarding mandates to prevent train oxygen deficits while limiting union-backed gate shutdowns
- Mirela Vance · Union Deck Steward — Empower the Transit Planters Union to enforce mandatory rest intervals and fair seed rations against the Platform Dispatch Syndicate
- Dr. Kaelen Thorne · Chief Carriage Agronomist — Enforce Arboretum Oversight Board diversity quotas to stabilize oxygen generation aboard long-haul carriages

地点与用途

- Central Concourse Labor Bureau — Processes passenger transit labor contracts, directly modifying state_platform_congestion by binding commuters to carriage crop shifts before passing them to the boarding airlocks.
- Canopy Seed Reserve Bank — Manages and rations state_rare_seed_stock, where stock depletion triggers emergency allotments to lower gates during peak transit hours.
- Express Platform Turnstile Gate 1 — Platform Dispatch Syndicate checkpoint that locks boarding gates whenever state_canopy_crop_health falls below safe life-support quotas.

世界概述

• In a city where gravity is a licensed municipal utility, citizens must lease 'down-vectors' to remain grounded. The Archive manages these licenses, handling the physical ballast and mathematical proofs required to keep the population from drifting away.

规则与制度

- All citizens must maintain a minimum weight of 60kg while in public halls.
- Unlicensed buoyancy exceeding 0.5 meters from the floor is a finable offense.
- Tampering with a municipal plumb line is considered high treason.

活动与压力

- The Vector Cycle · Acquire a license, retrieve a rod from the vault, calibrate it in the workshop, and use it to access high-gravity zones. · Rods decay over time and must be recharged or replaced.
- The Ballast Trade · Buy low-density ceramic, trade it for high-density lead, and use the weight to stabilize yourself in low-g areas or sell for profit. · Market prices fluctuate based on the Archive's current gravity reserves.

人物与目标

- Archivist Vane · Chief Registrar — To recover the 'Primal Vector' stolen by a buoyancy cult.
- Merchant Kael · Ballast Broker — To corner the market on high-density ceramic.
- Arbitrator Nox · Gravity Judge — To expose the corruption in the vector licensing process.

- Vector Licensing Vault — Storage of active gravity certificates and vector-rods.
- The Ballast Exchange — Trading physical weights to offset vector fluctuations.

物件

- Scribe Stylus · A brass stylus for engraving ceramic tablets.
- Bone-White Tablet · A blank ceramic tablet for official records.
- Cobalt Ink · Deep blue ink that glows slightly under UV light.

可能采取的行动

- Calibrate Vector Rod
- Apply Ballast
- Challenge Gravity License

玩家进入方式

- Arriving as a new claimant at the Intake Atrium.
- Starting as a junior technician in the Calibration Workshop.

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertiginous canyon city, spoken vows take on literal physical mass. The state taxes speech by weight upon utterance, and couriers must physically haul defaulted promises between precariously perched households.

规则与制度

- No sworn vow may be whispered within earshot of an Excise balance beam without paying the ambient acoustic fee.
- A promise-capsule dropped into the abyss cannot be redeemed or litigated once the third echo fades.
- Grinding a covenant before the Silence Assembly delivers a final seal incurs immediate physical custody of the debtor's voice-token.

活动与压力

- Excise Tariff Adjustment & Debt Impound Loop · Assayers weigh incoming promise capsules against registered balances, impounding over-weight vows and raising transit costs when strain spikes, directly driving state_transit_cost and altering state_promise_backlog. · Impounded spoken capsules pile up, rapidly increasing Unsettled Promise Mass until couriers face total gridlock.
- Gantry Rigging Strain Relief & Abyss Purge Loop · Riggers monitor cable tension under heavy debt traffic, dumping abandoned vow canisters into the depths or conducting emergency repairs, directly modifying state_bridge_strain and state_promise_backlog. · Pulley cables are fraying under physical promise weight, risking a catastrophic bridge snap if cargo is not cut.

人物与目标

- Tavish Vane · Senior Balance Bailiff — Force the Gantry Runners Syndicate to surrender defaulted promise ampoules to relieve state_bridge_strain
- Maren Kye · Gantry Line Marshal — Re-route courier traffic across secondary spans to prevent bridge failure without paying Excise surcharges
- Silas Fenn · Silence Mortar Scrivener — Dissolve toxic public vows to create structural mortar, challenging Excise hoarding of broken pledges

地点与用途

- Excise Weigh-Beam Registry — The Acoustic Excise balances physical pledge-mass against civic ledgers; increasing state_transit_cost here drives Under-cleft households in the Low-Cleft Depot to trade unbonded speech.
- Gantry Cable Rigging Depot — Abyss Couriers stage and dispatch heavy floating promises across canyon bridges; rising state_promise_backlog here directly increases state_bridge_strain on the Gantry Cable Rigging Depot spans.
- The Silence Assembly Mortar Basin — The Silence Assembly pulverizes adjudicated breached vows into civic masonry paste to reinforce weakened cliff ledges.

物件

- Excise Tuning Cudgel · A heavy bronze rod with split tines, used by Bell-warden bailiffs to vibrate and shatter unregistered speech-capsules.
- Lead-Sealed Speech Ampoule · A thick blown-glass capsule filled with dense, luminescent vapor containing a recorded promissory oath.
- Gantry Acoustic Balance · A brass beam balance calibrated with harmonic counterweights to determine the tax liability of spoken debt.

可能采取的行动

- AssaySpeechPledgeMass
- ImpoundSpeechCapsule
- ZiplineFreightRun

玩家进入方式

- Arrive as an audit-deputy assigned to inspect the overtaxed balance beams at the Excise Weigh-Beam Registry.
- Descend into the Gantry Runners Bivouac as an out-of-work courier seeking lucrative defaulted promise routes.

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertical cliff city, every witnessed spoken promise gains measurable weight and a tax liability. When households cannot pay, bonded couriers physically carry the sealed obligation through fragile routes to creditors, guarantors, or courts.

规则与制度

- A promise becomes assessable only when a registered witness or lawful echo can establish its wording.
- Three matching licensed readings make a promise-tax assessment binding unless the Echo Court grants reweighing.
- Liability follows the recorded witness chain; transfer requires acceptance by the recipient or a court order.

活动与压力

- Appeal, Reweigh, Publish · Gather witness tokens in Echo Court, secure three controlled readings in Triple Reading Chamber, and negotiate whether an assessment stands. A fair result lowers Promise Tax Arrears and [...] · The third reading becomes binding before unstable chamber echoes contaminate further cases.
- Refuse, Reroute, Discharge · Triage caskets at Burden Sorting Post, organize refusal at Courier Refusal Shelter, and negotiate a safe route through Anchor Gate and Lift Mouth. Successful delivery reduces Courier Burden [...] · Decay clocks, legal deadlines, and overload flags force unequal dispatch priorities.

人物与目标

- Mara Venn · Contradiction Reader of the Third Brass — Prove that Treasury-neglected chamber fractures caused mass overassessment, forcing the Office of Spoken Weights to reduce promise_tax_arrears through binding reweighings.
- Orris Kett · Bond-Seal Refusal Captain — Win recognized refusal authority from the Burden Post without triggering a dispatch strike that worsens cliff_route_access or promise decay.
- Seli Quoin · Listening-Bolt Cooperative Rigger — Secure cooperative control of anchor repairs from the Bell Treasury while reopening cliff_route_access without concealing dangerous courier loads.

地点与用途

- Triple Reading Chamber — The Office of Spoken Weights and Guild of Licensed Weighers capture witnessed promises; three matching balance readings bind tax assessments. Distorted readings expose changes in civic_resonance_stability, which later [...]
- Threshold Lien Office — Inspectors convert binding assessments into household liens, visibly threatening lift keys and cistern shares while ledge households petition for exemptions. Rising promise_tax_arrears here increases dispatch volume at the [...]
- Burden Sorting Post — The Burden Post stores and prioritizes sealed obligations by decay risk, deadline, and receiver capacity. Higher promise_tax_arrears sends more caskets here; rising courier_burden then produces congestion and closures [...]

物件

- Quartet of Promise Weights · Four calibrated brass weights for testing a promise's duration, scope, risk, and dependents. Licensed readings are admissible when three sets [...]
- Household Arrears Dial · A wall-mounted brass dial that advances with posted assessments and retreats when vowmarks clear. A black sector marks the household's [...]
- Courier Strain Chime · Harness chimes change pitch as carried liability approaches the legal burden cap, warning both courier and Warden gate crews.

可能采取的行动

- Triple-Read a Captured Promise
- Refuse an Unstable Casket
- Reweigh a Contested Echo

玩家进入方式

- A red overload flag at Burden Sorting Post forces a choice between delaying legal dispatches and risking promise decay.
- A household asks for representation before a third reading in Triple Reading Chamber makes its disputed tax binding.
