

世界设计比较问卷

Q05 / 独立分发版 · 共 6 场

本编号只分配给一位参与者。无需打开网页，也不需要安装插件。

阅读前，请先了解

每场比较同一个生成要求下的设计 A 与设计 B。来源名称隐藏，没有预设赢家。只评价所示书面设计，不评价图像、真实运行效果或游玩体验。

材料按统一字段、原始顺序和长度上限摘录；[...] 表示原文还有内容。没有展示的内容，不代表完整世界中不存在。文字更长本身不等于更好。

材料保留英文原文。请独立阅读，不要让他人或模型代评。预计约 30–45 分钟，实际时长有待试填确认；可休息或随时停止。

如何填写与交回

Word 版：在“答案”空格直接输入数字，在背景选项旁标记√。PDF 版：打印后填写数字和勾选，拍照或扫描交回。两种格式内容相同，任选一种填写一次即可。

每场先读完 A、B 两页，再填写本场评分页。每题填写一个 1–6 的数字；允许相当或无法判断。可选评论可用中文或英文，不填写姓名、邮箱等个人信息。

参与与数据

参与自愿。收集编号、背景、评分、可选评论和自报用时，用于学术汇总及去标识化报告。评论引用另行征求同意。文件不会自动上传，请交给邀请人。交回前可自行删除；交回后可凭编号申请撤回，汇总公开后可能无法撤回。

邀请人是研究联系渠道；开始前可向其了解答卷接收方式、保存期限、是否有报酬及其他研究安排。不要在本文件填写身份信息。

必填确认（任一项不符合，请停止填写）

已年满 18 岁：☐ 是 ☐ 否 能独立读懂英文材料：☐ 是 ☐ 否

已阅读说明并自愿同意参与：☐ 是 ☐ 否

是否参与过本系统开发或看过其详细结果：☐ 没有 ☐ 有 ☐ 不确定

文字冒险／角色扮演游戏体验（可选）：☐ 没有 ☐ 偶尔 ☐ 经常 ☐ 不回答

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertical cliff city, every witnessed spoken promise gains measurable weight and a tax liability. When households cannot pay, bonded couriers physically carry the sealed obligation through fragile routes to creditors, guarantors, or courts.

规则与制度

- A promise becomes assessable only when a registered witness or lawful echo can establish its wording.
- Three matching licensed readings make a promise-tax assessment binding unless the Echo Court grants reweighing.
- Liability follows the recorded witness chain; transfer requires acceptance by the recipient or a court order.

活动与压力

- Appeal, Reweigh, Publish · Gather witness tokens in Echo Court, secure three controlled readings in Triple Reading Chamber, and negotiate whether an assessment stands. A fair result lowers Promise Tax Arrears and [...] · The third reading becomes binding before unstable chamber echoes contaminate further cases.
- Refuse, Reroute, Discharge · Triage caskets at Burden Sorting Post, organize refusal at Courier Refusal Shelter, and negotiate a safe route through Anchor Gate and Lift Mouth. Successful delivery reduces Courier Burden [...] · Decay clocks, legal deadlines, and overload flags force unequal dispatch priorities.

人物与目标

- Mara Venn · Contradiction Reader of the Third Brass — Prove that Treasury-neglected chamber fractures caused mass overassessment, forcing the Office of Spoken Weights to reduce promise_tax_arrears through binding reweighings.
- Orris Kett · Bond-Seal Refusal Captain — Win recognized refusal authority from the Burden Post without triggering a dispatch strike that worsens cliff_route_access or promise decay.
- Seli Quoin · Listening-Bolt Cooperative Rigger — Secure cooperative control of anchor repairs from the Bell Treasury while reopening cliff_route_access without concealing dangerous courier loads.

地点与用途

- Triple Reading Chamber — The Office of Spoken Weights and Guild of Licensed Weighers capture witnessed promises; three matching balance readings bind tax assessments. Distorted readings expose changes in civic_resonance_stability, which later [...]
- Threshold Lien Office — Inspectors convert binding assessments into household liens, visibly threatening lift keys and cistern shares while ledge households petition for exemptions. Rising promise_tax_arrears here increases dispatch volume at the [...]
- Burden Sorting Post — The Burden Post stores and prioritizes sealed obligations by decay risk, deadline, and receiver capacity. Higher promise_tax_arrears sends more caskets here; rising courier_burden then produces congestion and closures [...]

物件

- Quartet of Promise Weights · Four calibrated brass weights for testing a promise's duration, scope, risk, and dependents. Licensed readings are admissible when three sets [...]
- Household Arrears Dial · A wall-mounted brass dial that advances with posted assessments and retreats when vowmarks clear. A black sector marks the household's [...]
- Courier Strain Chime · Harness chimes change pitch as carried liability approaches the legal burden cap, warning both courier and Warden gate crews.

可能采取的行动

- Triple-Read a Captured Promise
- Refuse an Unstable Casket
- Reweigh a Contested Echo

玩家进入方式

- A red overload flag at Burden Sorting Post forces a choice between delaying legal dispatches and risking promise decay.
- A household asks for representation before a third reading in Triple Reading Chamber makes its disputed tax binding.

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

规则与制度

- All spoken promises must be weighed in grams of lead foil before they can be filed
- Unpaid vows accrue interest daily and are subject to summary erasure by the Silent Office

活动与压力

- Tax Collection Dispute · Weighing spoken promises and levying heavy debt taxes on reluctant orators · debt_load
- Route Auction and Transit · Auctioning vertical transport routes to the lowest bidder under threat of cliffside archers · courier_speed

人物与目标

- Vaelen Vance · Chief Weighmaster — Expand tax collection mandates across all districts to reduce default_rate
- Lyra Vane · Guild Master — Auction routes to the lowest bidder to reduce transit latency
- Silas Vance · Chief Inquisitor — Expand summary erasure of idle vows to control silence_spread

地点与用途

- The Grand Scale — Weigh spoken promises and levy debt taxes. State variable debt_load increases here, which affects default_rate in the silent office.
- The Unbound Guild Hall — Transport unpaid vows across vertical drops. State variable courier_speed is managed here, affecting transit latency.
- The Silent Office — Eradicate unfulfilled contracts before they rot. State variable default_rate changes here, affecting silence_spread.

物件

- Standard Vow Token · A heavy disk of raw lead stamped with the seal of the Grand Balance, used to prepay syllable taxes.
- Unbound Courier Pouch · A treated leather bag designed to muffle restless notes so they do not accrue transit interest.
- Pocket Syllable Scale · Precision balance used by citizens to weigh spoken promises before registering them with bailiffs.

可能采取的行动

- Weigh Syllables
- Levy Lead Tax
- Auction Vertical Route

玩家进入方式

- Arrive at The Grand Scale to contest a lead tax receipt
- Inspect whispering notes at The Unbound Guild Hall before dispatch

Q05 · 第 2 / 6 场 · 设计 A

共生生成要求

A public museum exhibits debts that nations, guilds, and families have not incurred yet. Curators stabilize possible obligations, actuaries price alternate histories, thieves swap liability provenance, and visitors can make an exhibit become real. Build exactly six connected, functionally distinct galleries and twelve socially entangled agents. Make probability and debt ownership alter access, prices, relationships, room states, and future event hooks. Include one or two monumental world-specific semantic exhibits per room. Use black basalt, frosted glass, oxidized silver, signal red, pale mint illumination, and white ceramic tally forms without writing in a coherent top-down pixel-art canon. Avoid generic museums, generic sci-fi terminals, Beijing references, signs, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- A museum displaying debts from timelines that haven't happened yet, where curators and actuaries trade the provenance of future liabilities.

规则与制度

- Debts must be addressed by their provenance ID, never by the name of the debtor.
- No physical contact is allowed within the Hall of Unborn Wars to prevent causal contamination.
- All trades must be witnessed by a licensed Actuary or Auctioneer.

活动与压力

- Debt Trading · Players acquire future debts, manipulate their provenance to change their value, and auction them for profit. · Market volatility and guard patrols.
- Causal Investigation · Players research the origins of debts to find flaws or forgeries that can be used as leverage. · Limited access to files and bureaucratic red tape.

人物与目标

- Archivist Vael · Head Curator — To prove that the debt of the Sun-King is a forgery.
- Broker Kaelen · Debt Merchant — To offload the 'Total System Collapse' debt before it manifests.
- Actuary Elara · Probability Analyst — To find a mathematical error in the Museum's core logic.

地点与用途

- The Hall of Unborn Wars — Displaying the costs of conflicts that were narrowly avoided.
- The Actuarial Cloister — Calculating the probability of debt manifestation.
- The Provenance Vault — Storing the legal titles of future liabilities.

物件

- Silver Tongs · Precision tools for handling delicate ceramic shards.
- Frosted Lens · A glass lens that reveals probability shifts in artifacts.
- Blank Ceramic Tally · A white ceramic slab ready for debt inscription.

可能采取的行动

- Appraise Debt Provenance
- Swap Liability Tag
- Calculate Manifestation Probability

玩家进入方式

- As a new Actuary assigned to the Cloister.
- As a visitor who has just discovered a future debt in their name.

Avoid generic museums, generic sci-fi terminals, Beijing references, signs, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- A public institution exhibiting debts not yet incurred, where curators stabilize possible obligations and visitors can manifest alternate histories into reality.

规则与制度

- All debts must be acknowledged in public before they can be settled privately.
- Direct physical violence is considered a breach of contract and results in immediate asset seizure.
- Silence during a negotiation is legally binding as consent to the last stated term.

活动与压力

- The Debt Cycle · Players acquire high-value artifacts using borrowed time, then must manipulate others into taking on their debt before the interest expires. · The ticking of the Chronos-Ledger.
- The Social Audit · Players engage in formal debates to revalue their social assets while attempting to devalue their rivals' standing through scandal. · The impending public disclosure of all private ledgers.

人物与目标

- Vaelen Thorne · Senior Debt Appraiser — To uncover the lost debt of the First Curator
- Kaelith Sun-Trader · Speculative Asset Merchant — To corner the market on 'Regret' before the next fiscal cycle.
- Elara Voss · Provenance Scrubber — To find the original record of her own family's servitude.

地点与用途

- Liability Intake Portal — Processing incoming future debt claims
- The Speculative Ledger Archive — Storage of unmanifested financial obligations
- Obligation Auction Floor — Trading future liabilities between curators

物件

- Unwritten Treaty of the Void · A scroll of frosted glass that reveals text only when viewed through a causal lens. It outlines a peace that [...]
- Oxidized Silver Tally-Stick · A heavy silver rod etched with notches representing unpaid generational favors. The oxidation indicates the age of the debt.
- Ceramic Debt Form (Shattered) · A kiln-fired clay tablet used to record liability. This one is broken, signifying a defaulted probability.

可能采取的行动

- Audit Legacy: Investigate a rival's ancestral debts to find leverage.
- Foreclose Memory: Extract a specific memory from a debtor as collateral.
- Liquidate Reputation: Sacrifice social standing to cancel a financial obligation.

玩家进入方式

- A newly appointed curator discovering a ledger of impossible debts.
- A high-stakes debtor arriving to trade their family's future for a single night of luxury.

Q05 · 第 3 / 6 场 · 设计 A

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a cliffside city, every spoken promise is taxed by weight, while couriers carry unpaid vows between households.

规则与制度

- Every witnessed promise accrues weight-tax until fulfilled, transferred, voided, or paid.
- A stamped vow slip is presumptive evidence, but its wording may be publicly reweighed.
- Bridge passage may be restricted when a household exceeds its posted safety bond.

活动与压力

- Reweigh, settle, reopen · Contest excessive vowweight, assemble witnesses, and settle or amend the result before a bond review closes passage. · Changes unpaid_vowweight and household_liquidity; if balances remain high, activates the unpaid_vowweight-to-bridge_access closure link.
- Custody chain recovery · Trace delayed bundles, repair route failures, and expose or contain tampered echoes before disputes spread. · Changes courier_route_capacity and echo_credibility; prolonged overload activates the courier_route_capacity-to-echo_credibility causal link.

人物与目标

- Mera Venn · Disputed-Vow Reweigher — Win a precedent that lets low-liquidity households split duration taxes, changing household_liquidity and the Weighhouse decision rule.
- Ilyra Quen · Storm-Route Custodian — Secure a neutral storm corridor that prevents bridge_access closures from severing debtor deliveries and worsened household_liquidity.
- Sable Orr · Echo Bailiff and Forgery Listener — Identify the source of circulating forged echoes before compromised rulings trigger bridge_access protests and mass defaults.

地点与用途

- Weighhouse Speaking Hall — The Weighhouse certifies spoken promises and collects tax. Rising unpaid_vowweight is recorded here; overloaded vows are then sent to the Courier Intake Vault.
- Courier Intake Vault — Licensed couriers take custody of unpaid promise bundles and prioritize mature routes. Strained courier_route_capacity here causes late bundles to undermine Echo Court evidence.
- Chain-Gate Bondhouse — Bridge wardens review household safety bonds and chain crossings for delinquent vowweight. Reduced bridge_access here cuts merchant trade at the Bridgehead Exchange afterward.

物件

- Stamped Vow Slip · Brass-edged Weighhouse slip listing spoken terms, witnesses, tax weight, and due date.
- Portable Speaking Scale · A clerk-grade brass scale that weighs wording, duration, and named witnesses in a spoken pledge.
- Sealed Courier Satchel · Waxed windcloth satchel with three custody locks and ribbon slots for unpaid promise bundles.

可能采取的行动

- Reweigh a vow
- Seal a promise bundle
- Tender a safety bond

玩家进入方式

- Carry a late promise bundle whose seal was damaged in a wind crossing.
- Petition to reweigh a family vow that now threatens bridge access.

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

规则与制度

- Never speak a promise you cannot afford to have weighed.
- Couriers must be given right of way; their burdens are heavy enough.
- Do not look directly at the colored smoke rising from the Deep Archive.

活动与压力

- The Weight of Words · Auditors weigh promises, increasing taxes, which forces Couriers to handle more defaults. · Increases sv_tax_rate and sv_courier_workload.
- The Breaking Point · Couriers struggle with the workload, leading to strikes and a drop in public trust. · Decreases sv_public_trust and increases sv_unpaid_promises.

人物与目标

- Thaddeus Flint · Rogue Promise Broker — Establish a black market for emotional promises to empower sg_poor_citizens and reduce sv_unpaid_promises.
- Elara Vance · Archive Sentinel Defector — Release stored emotional energy to collapse the Archive and force a reset of sv_tax_rate.
- Silas Thorne · Ministry Auditor — Crush the black market and ensure sg_wealthy_merchants pay their fair share, increasing sv_public_trust.

地点与用途

- Ministry Weighing Station Alpha — Assess and tax the weight of spoken promises (sv_tax_rate).
- Courier Dispatch Yard — Organize and dispatch couriers carrying unpaid promises (sv_courier_workload).
- The Deep Archive Entrance — Store broken promises and extract residual value (sv_archive_capacity).

物件

- Pocket Brass Scale · A portable brass scale used by citizens to estimate the tax weight of their words before speaking.
- Vial of Glowing Ink · Specialized ink used to transcribe promises. It glows brighter based on the emotional gravity of the words.
- Courier's Iron Lockbox · A heavy iron lockbox used by the Guild of Burdened Couriers to transport defaulted promises safely.

可能采取的行动

- Weigh a spoken promise
- Transfer a defaulted promise
- Extract emotional energy from a broken promise

玩家进入方式

- You are a Courier whose ledger is glowing dangerously bright.
- You are an Auditor who just discovered a massive discrepancy in the Gilded Tongues' taxes.

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

规则与制度

- Never touch another passenger's assigned crop without permission.
- Always defer to the Guild Enforcer regarding train schedule disputes.
- Water rations must be negotiated, never taken by force.

活动与压力

- Resource Allocation Dispute · Players must negotiate water and light distribution between rare crops and passenger comfort. · Water and Light Reserves are dropping, increasing Passenger Fatigue.
- Speed vs. Stability · Engineers and Navigators must balance train speed with the risk of damaging delicate crops. · High train speed depletes resources faster, threatening Overall Crop Health.

人物与目标

- Dr. Aris Thorne · Chief Botanist — Cultivate the ultimate exotic orchid without depleting sv_resource_reserves
- Silas Vance · Lead Engineer — Keep the train on schedule despite the Botanical Board's water demands
- Elara Vance · Union Representative — Reduce mandatory crop tending labor to improve passenger morale

地点与用途

- Guild Navigation Deck — Conductor's Guild route planning and speed control. Affects sv_train_speed.
- Botanical Control Center — Botanical Board water and light allocation. Affects sv_resource_reserves.
- Commuter Rest Cabin — Passenger Union rest area to lower sv_passenger_fatigue.

物件

- Brass-Fitted Trowel · A sturdy gardening trowel with a brass handle, essential for tending crops on the move.
- First Class Commuter Ticket · A gold-leafed ticket granting access to the fastest routes and most comfortable cabins.
- Lunar Fern Spores · Extremely rare seeds that require precise light allocation from the Botanical Board.

可能采取的行动

- Reroute Water Supply
- Adjust Sun-Roof Panels
- Smuggle Rare Seeds

玩家进入方式

- You wake up to the sound of the automated sprinklers failing.
- A ticket inspector demands to see your crop yield quota.

Q05 · 第 4 / 6 场 · 设计 B

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- A living train where passenger labor determines the route and speed.

规则与制度

- All resource transfers must be logged in the Council Chamber.
- Engineers hold veto power over speed adjustments exceeding 90%.
- Botanists must approve any seed removal from the Archive.

活动与压力

- Nutrient Enrichment Cycle · Hydroponics Specialists and Head Botanists work together to improve soil health, which eventually increases crop yield and stabilizes train speed. · Soil fertility is currently low, limiting the train's long-term sustainability.
- Bio-fuel Optimization · Bio-Engineers and Fuel Technicians convert crop yields into fuel to increase engine output, directly impacting train speed. · Engine output is insufficient to meet the Conductors Guild's speed requirements.

人物与目标

- Kaelen Vane · Chief Conductor — Maintain train_speed above 80% to satisfy Conductors Guild
- Elara Thorne · Head Botanist — Increase crop_yield to satisfy Botany Bureau
- Jaxon Reed · Maintenance Lead — Improve soil_fertility to satisfy Engineers

地点与用途

- Throttle Control Hub — Conductors Guild hub where train speed is regulated; high speed here triggers vibration-related labor efficiency drops in the Commuter Lounge.
- Seed Archive — Storage for rare seeds; nutrient enrichment here increases crop yield in the Hydroponics Bay after 2 cycles.
- Hydroponics Bay — Crop cultivation area; increased biomass here is converted to bio-fuel to boost train speed.

物件

- Brass Soil Probe · A handheld brass device that glows soft amber when soil fertility is optimal. Essential for monitoring the Botany Bureau's mandates.
- Luminescent Fern Spores · Rare spores that thrive in high-vibration environments. Highly sought after by Botanists to meet diversity quotas.
- Conductors Guild Pass · A stamped brass token granting passage. Valid only when train speed exceeds 80% capacity.

可能采取的行动

- EnrichSoil
- CalibrateThrottle
- HarvestRareSeeds

玩家进入方式

- The Commuter Lounge during a scheduled shift change.
- The Maintenance Yard after a reported engine vibration spike.

A municipal archive licenses gravity vectors as property. Couriers carry temporary down-directions, families mortgage ballast, and arbitrators settle accidents caused by counterfeit vectors. Build exactly six connected, functionally distinct rooms and twelve socially entangled agents. Make gravity rights affect movement, access, prices, disputes, and visible room conditions rather than serving as lore. Include one or two large world-specific semantic machines or props per room. Use cobalt glass, bone-white ceramic, vermilion plumb lines, graphite shadows, and brass measurement hardware in a coherent top-down pixel-art canon. Avoid generic cyberpunk, medieval fantasy, Beijing references, signs, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- A municipal hub where gravity is a licensed commodity, managed through tradeable vectors and ballast mortgages.

规则与制度

- All spatial shifts must be logged with the Central Ledger.
- Counterfeit gravity vectors are punishable by permanent grounding.
- Collisions between private pocket dimensions require immediate mediation.

活动与压力

- Vector Auditing · Players investigate spatial anomalies, collect data, and file reports to stabilize the sector. · Increasing spatial instability
- Smuggling Crackdown · Players track down counterfeit gravity sources and seize illegal vector-shifting devices. · Bureaucratic deadlines

人物与目标

- Vaelen Thorne · Lead Vector Auditor — To recover the lost gravitational constant of the Old City
- Silas Vane · Ballast Broker — To corner the market on heavy metals to control the city's descent
- Kaelith Sun · Maintenance Rigging Specialist — To find the source of the 'Weightless Rot' eating the cables

地点与用途

- Vector Licensing Desk — Issuing temporary gravity-rights for visitors.
- Ballast Mortgage Vault — Storage of physical ballast stones used as collateral.
- Arbitration Chamber — Resolving disputes over overlapping gravity vectors.

物件

- Standard Cobalt Plumb-Bob · A heavy cobalt glass weight used to establish the local vertical in shifting gravity zones.
- Vector-Lock Seal · A bone-white ceramic wafer used to legally freeze a spatial vector for 24 hours.
- Ballast Mortgage Ledger · A thick brass-bound book recording the debt-weight of a specific district.

可能采取的行动

- Recalibrate local gravity constant
- Audit spatial ledger for vector drift
- Forge a temporary transit permit

玩家进入方式

- A sudden spatial collapse in the residential sector.
- A summons to the Bureau of Weight and Measures.

Avoid generic cyberpunk, medieval fantasy, Beijing references, signs, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

• In a city where gravity is a licensed municipal utility, citizens must lease 'down-vectors' to remain grounded. The Archive manages these licenses, handling the physical ballast and mathematical proofs required to keep the population from drifting away.

规则与制度

- All citizens must maintain a minimum weight of 60kg while in public halls.
- Unlicensed buoyancy exceeding 0.5 meters from the floor is a finable offense.
- Tampering with a municipal plumb line is considered high treason.

活动与压力

- The Vector Cycle · Acquire a license, retrieve a rod from the vault, calibrate it in the workshop, and use it to access high-gravity zones. · Rods decay over time and must be recharged or replaced.
- The Ballast Trade · Buy low-density ceramic, trade it for high-density lead, and use the weight to stabilize yourself in low-g areas or sell for profit. · Market prices fluctuate based on the Archive's current gravity reserves.

人物与目标

- Archivist Vane · Chief Registrar — To recover the 'Primal Vector' stolen by a buoyancy cult.
- Merchant Kael · Ballast Broker — To corner the market on high-density ceramic.
- Arbitrator Nox · Gravity Judge — To expose the corruption in the vector licensing process.

地点与用途

- The Intake Atrium — Processing new gravity claimants and weighing visitors.
- Vector Licensing Vault — Storage of active gravity certificates and vector-rods.
- The Ballast Exchange — Trading physical weights to offset vector fluctuations.

物件

- Scribe Stylus · A brass stylus for engraving ceramic tablets.
- Bone-White Tablet · A blank ceramic tablet for official records.
- Cobalt Ink · Deep blue ink that glows slightly under UV light.

可能采取的行动

- Calibrate Vector Rod
- Apply Ballast
- Challenge Gravity License

玩家进入方式

- Arriving as a new claimant at the Intake Atrium.
- Starting as a junior technician in the Calibration Workshop.

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- On Marrowkey Island, confiscated objects become seawalls, ramps, and breakwaters under court order, causing each judgment and construction choice to redistribute access to the sea, storm risk, and public trust.

规则与制度

- A seized object remains identifiable and unaltered until a stamped judgment permits return, auction, destruction, or reclamation.
- Every seizure inventory must receive a public review after seven days; missing entries weaken both custody and contraband claims.
- Access certification requires measured travel time and safe passage across published tide thresholds, not merely a drawn route.

活动与压力

- Manifest, Claim, and Release · At Bonded Seizure Warehouse, players reconcile the seven-day inventory, preserve identifying marks, build claim-chains, and argue release or injunction in Dark Slate Hearing Court. Judgments reduce or increase [...] · Weather damage and approaching construction deadlines make delay costly, while premature release risks wrongful dispossession.
- Design, Measure, and Enjoin · At Shoreline Works Design Bay, a defense is scored, then tested in Access Measurement Chamber and Outer Ward All-Tide Landing. Certification changes Neighborhood Sea Access; a failed threshold [...] · Every route improvement competes with structural safety, berth clearance, and the need to finish before dangerous tides.

人物与目标

- Ilyra Venn-of-Seven-Tides · Claim-Chain Advocate and Object Genealogist — Force the Marrowkey Forfeiture Court to create a pre-construction restitution docket, improving forfeiture_legitimacy without freezing usable_forfeit_stock needed for emergency works.
- Bram Coilhand · Forfeit-Hull Structural Surgeon — Prove that modular, identity-preserving construction can lower coastal_hazard_exposure without destroying claimant evidence or worsening neighborhood_sea_access.
- Sava Orrel · Barefoot Tide-Route Examiner — Win a binding Tide Access Commission rule that counts children's, elders', and fish-haulers' travel times, raising forfeiture_legitimacy by preventing access gains from favoring harbor districts.

地点与用途

- Dark Slate Hearing Court — Marrowkey Forfeiture Court hearings determine return, auction, destruction, or reclamation. Resolving claimant_case_pressure here releases usable_forfeit_stock to the Seized Materials Yard; injunctions instead freeze tagged objects there.
- Bonded Seizure Warehouse — Island Customs Service inventories impounded cargo while claimants verify traceable objects. New seizures raise claimant_case_pressure in the Hearing Court and crowd usable_forfeit_stock before any release to construction.
- Shoreline Works Design Bay — The Shoreline Works Board and Salvage Builders Guild turn court-released objects into scored coastal designs. Approved withdrawals reduce usable_forfeit_stock in the warehouse, reshape shoreline_configuration at the Assembly Slip, [...]

物件

- Seven-Day Red Seizure Tag · Numbered oilcloth tag recording seizure cause, officer, warehouse bay, and mandatory review date.
- Bonded Warehouse Manifest · Customs-recognized ledger leaf tracing an impounded object through storage, claims, and release.
- Custody Seal Kit · Lead seals, wire, wax, and numbered punches used to preserve an object's evidentiary chain.

可能采取的行动

- Trace a claim-chain through marks, liens, manifests, and testimony
- Petition an alteration injunction against a disputed object
- Score a forfeit hull for reversible shoreline use

玩家进入方式

- A seven-day review at Bonded Seizure Warehouse reveals a hull component absent from the public manifest.
- A disputed vehicle is scheduled for irreversible incorporation at Confiscated Works Assembly Slip before its ownership hearing.

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- On a tide-swept island, the governing Admiralty Court reclaims storm-eroded coastlines entirely out of impounded contraband, constantly shifting which districts can reach the water and reshaping urban power.

规则与制度

- No confiscated ballast or riprap may be extracted from the shoreline once marked with the High Admiralty lead chop.
- Fishercraft must purchase a toll warrant before traversing breakwater gates during neap tide.
- Any unmarked salvage hauled from the silt trenches is deemed Admiralty property by default.

活动与压力

- Reclamation Foreclosure Cycle · Admiralty magistrates condemn seized trade goods and direct engineers to submerge them into expanding barriers, raising shoreline_reclamation_depth and restricting neighborhood_sea_access. · Rising cargo volume forces aggressive shoreline enclosure, threatening to block harbor navigation.
- Slipway Liberation and Smuggling Circuit · Fisherfolk and salvage syndicates dredge submerged cargo and construct illicit ramps to maintain neighborhood_sea_access, altering contraband_forfeiture_volume and civic_unrest_level. · Rapid seawall construction creates maritime choke points, pushing the district toward violent dock strikes.

人物与目标

- Senior Assay-Master Corvus Vane · Chief Contraband Ballast Assayer — Redirect court-condemned iron consignments away from the barrier to slow down shoreline_reclamation_depth and compel the Tribunal of Forfeiture to negotiate terms.
- Bailiff-Pioneer Justinian Kroll · Admiralty Reclamation Marshal — Seal off Low-Cove launchways completely to enforce Tribunal of Forfeiture toll monopolies and crush neighborhood_sea_access.
- Slipway Warden Orla Skiff · Haven Maritime Guild Leader — Organize Low-Cove Fisherfolk into a general dock strike to halt contraband_forfeiture_volume and dismantle the riprap buttress.

地点与用途

- High Admiralty Forfeiture Chamber — The Admiralty Court formally condemns seized sea-cargo into structural riprap, directly increasing contraband_forfeiture_volume and determining which seaward districts will lose direct water access.
- Board of Riprap Assay Depot — Engineers test buoyancy and density of confiscated contraband, stamping heavy iron and stone to advance shoreline_reclamation_depth outwards.
- Haven Slipway Guild Hall — Master mariners organize pirate ramps and maintain fishing access; when neighborhood_sea_access drops, unrest plans and dock strikes are coordinated here.

物件

- Admiralty Forfeiture Ledger · A brass-bound vellum ledger documenting condemned merchant goods reclassified as structural riprap.
- Hydrostatic Riprap Plummets · A calibrated lead and brass sinker used by the Assay Board to measure contraband buoyancy and core density.
- Cinnabar Masonry Chalk · Waterproof mineral compound used to score structural gridlines and forfeiture warrants on marine stone.

可能采取的行动

- Chop_Ballast_Manifest
- Petition_Slipway_Exemption
- Dredge_Submerged_Gabion

玩家进入方式

- A newly appointed Assayer inspecting disputed ballast chests at the Board of Riprap Assay Depot.
- A desperate fisherman arriving at Haven Slipway Guild Hall to protest a sealed harbor ramp.

Q05 · 第 6 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____
