Q07 / 独立分发版 · 共 6 场

本编号只分配给一位参与者。无需打开网页，也不需要安装插件。

阅读前，请先了解

每场比较同一个生成要求下的设计 A 与设计 B。来源名称隐藏，没有预设赢家。只评价所示书面设计，不评价图像、真实运行效果或游玩体验。

材料按统一字段、原始顺序和长度上限摘录；[...] 表示原文还有内容。没有展示的内容，不代表完整世界中不存在。文字更长本身不等于更好。

材料保留英文原文。请独立阅读，不要让他人或模型代评。预计约 30–45 分钟，实际时长有待试填确认；可休息或随时停止。

如何填写与交回

Word 版：在“答案”空格直接输入数字，在背景选项旁标记√。PDF 版：打印后填写数字和勾选，拍照或扫描交回。两种格式内容相同，任选一种填写一次即可。

每场先读完 A、B 两页，再填写本场评分页。每题填写一个 1–6 的数字；允许相当或无法判断。可选评论可用中文或英文，不填写姓名、邮箱等个人信息。

参与与数据

参与自愿。收集编号、背景、评分、可选评论和自报用时，用于学术汇总及去标识化报告。评论引用另行征求同意。文件不会自动上传，请交给邀请人。交回前可自行删除；交回后可凭编号申请撤回，汇总公开后可能无法撤回。

邀请人是研究联系渠道；开始前可向其了解答卷接收方式、保存期限、是否有报酬及其他研究安排。不要在本文件填写身份信息。

必填确认（任一项不符合，请停止填写）

已年满 18 岁：☐ 是 ☐ 否 能独立读懂英文材料：☐ 是 ☐ 否

已阅读说明并自愿同意参与：☐ 是 ☐ 否

是否参与过本系统开发或看过其详细结果：☐ 没有 ☐ 有 ☐ 不确定

文字冒险／角色扮演游戏体验（可选）：☐ 没有 ☐ 偶尔 ☐ 经常 ☐ 不回答

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

规则与制度

- All seized goods must be publicly declared before being used for foundation building.
- Access to the sea is a privilege granted by the Surveyors, not a right.
- Salvaged items belong to the finder unless claimed by the Court within 24 hours.

活动与压力

- The Confiscation Cycle · The Court confiscates goods to reinforce the shoreline, which angers the public and fuels the black market. · Public Unrest increases as more goods are seized.
- The Smuggler's Dilemma · Smugglers exploit restricted access to sell goods, which weakens the shoreline as salvagers steal foundation materials. · Shoreline Integrity decreases as the black market thrives.

人物与目标

- Judge Silas · Chief Adjudicator — Maintain sv_court_authority by ensuring sg_coastal_elite properties are protected while seizing inland assets
- Surveyor Vance · Lead Shoreline Mapper — Accurately map the shifting coast to prevent sv_shoreline_integrity collapse, despite pressure from sg_coastal_elite
- Elara of the Shallows · Master Salvager — Undermine inst_courthouse by claiming valuable items before they can be seized

地点与用途

- The High Court of Confiscation — Adjudicate disputes and seize property (changes sv_shoreline_integrity)
- Shoreline Surveyors Office — Map the shifting coast and determine access (changes sv_neighborhood_access)
- Deep Salvage Guildhall — Recover lost items and trade on the black market (changes sv_black_market_activity)

物件

- Seized Brass Compass · A heavy brass compass confiscated by the High Court, used to navigate the shifting tides.
- Writ of Confiscation · An official document authorizing the seizure of property for shoreline reinforcement.
- Foundation Rubble Block · A chunk of compressed debris and seized goods, used to shore up the island's foundation.

可能采取的行动

- Petition the Court for Confiscation
- Bribe a Surveyor for Access
- Smuggle Goods through the Cove

玩家进入方式

- You have just arrived at the High Court of Confiscation, seeking justice for a seized family heirloom.
- You are a newly appointed Surveyor, tasked with mapping a particularly unstable section of the shoreline.

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- On a tide-swept island, the governing Admiralty Court reclaims storm-eroded coastlines entirely out of impounded contraband, constantly shifting which districts can reach the water and reshaping urban power.

规则与制度

- No confiscated ballast or riprap may be extracted from the shoreline once marked with the High Admiralty lead chop.
- Fishercraft must purchase a toll warrant before traversing breakwater gates during neap tide.
- Any unmarked salvage hauled from the silt trenches is deemed Admiralty property by default.

活动与压力

- Reclamation Foreclosure Cycle · Admiralty magistrates condemn seized trade goods and direct engineers to submerge them into expanding barriers, raising shoreline_reclamation_depth and restricting neighborhood_sea_access. · Rising cargo volume forces aggressive shoreline enclosure, threatening to block harbor navigation.
- Slipway Liberation and Smuggling Circuit · Fisherfolk and salvage syndicates dredge submerged cargo and construct illicit ramps to maintain neighborhood_sea_access, altering contraband_forfeiture_volume and civic_unrest_level. · Rapid seawall construction creates maritime choke points, pushing the district toward violent dock strikes.

人物与目标

- Senior Assay-Master Corvus Vane · Chief Contraband Ballast Assayer — Redirect court-condemned iron consignments away from the barrier to slow down shoreline_reclamation_depth and compel the Tribunal of Forfeiture to negotiate terms.
- Bailiff-Pioneer Justinian Kroll · Admiralty Reclamation Marshal — Seal off Low-Cove launchways completely to enforce Tribunal of Forfeiture toll monopolies and crush neighborhood_sea_access.
- Slipway Warden Orla Skiff · Haven Maritime Guild Leader — Organize Low-Cove Fisherfolk into a general dock strike to halt contraband_forfeiture_volume and dismantle the riprap buttress.

地点与用途

- High Admiralty Forfeiture Chamber — The Admiralty Court formally condemns seized sea-cargo into structural riprap, directly increasing contraband_forfeiture_volume and determining which seaward districts will lose direct water access.
- Board of Riprap Assay Depot — Engineers test buoyancy and density of confiscated contraband, stamping heavy iron and stone to advance shoreline_reclamation_depth outwards.
- Haven Slipway Guild Hall — Master mariners organize pirate ramps and maintain fishing access; when neighborhood_sea_access drops, unrest plans and dock strikes are coordinated here.

物件

- Admiralty Forfeiture Ledger · A brass-bound vellum ledger documenting condemned merchant goods reclassified as structural riprap.
- Hydrostatic Riprap Plummets · A calibrated lead and brass sinker used by the Assay Board to measure contraband buoyancy and core density.
- Cinnabar Masonry Chalk · Waterproof mineral compound used to score structural gridlines and forfeiture warrants on marine stone.

可能采取的行动

- Chop_Ballast_Manifest
- Petition_Slipway_Exemption
- Dredge_Submerged_Gabion

玩家进入方式

- A newly appointed Assayer inspecting disputed ballast chests at the Board of Riprap Assay Depot.
- A desperate fisherman arriving at Haven Slipway Guild Hall to protest a sealed harbor ramp.

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

规则与制度

- Never speak a promise you cannot afford to have weighed.
- Couriers must be given right of way; their burdens are heavy enough.
- Do not look directly at the colored smoke rising from the Deep Archive.

活动与压力

- The Weight of Words · Auditors weigh promises, increasing taxes, which forces Couriers to handle more defaults. · Increases sv_tax_rate and sv_courier_workload.
- The Breaking Point · Couriers struggle with the workload, leading to strikes and a drop in public trust. · Decreases sv_public_trust and increases sv_unpaid_promises.

人物与目标

- Thaddeus Flint · Rogue Promise Broker — Establish a black market for emotional promises to empower sg_poor_citizens and reduce sv_unpaid_promises.
- Elara Vance · Archive Sentinel Defector — Release stored emotional energy to collapse the Archive and force a reset of sv_tax_rate.
- Silas Thorne · Ministry Auditor — Crush the black market and ensure sg_wealthy_merchants pay their fair share, increasing sv_public_trust.

地点与用途

- Ministry Weighing Station Alpha — Assess and tax the weight of spoken promises (sv_tax_rate).
- Courier Dispatch Yard — Organize and dispatch couriers carrying unpaid promises (sv_courier_workload).
- The Deep Archive Entrance — Store broken promises and extract residual value (sv_archive_capacity).

物件

- Pocket Brass Scale · A portable brass scale used by citizens to estimate the tax weight of their words before speaking.
- Vial of Glowing Ink · Specialized ink used to transcribe promises. It glows brighter based on the emotional gravity of the words.
- Courier's Iron Lockbox · A heavy iron lockbox used by the Guild of Burdened Couriers to transport defaulted promises safely.

可能采取的行动

- Weigh a spoken promise
- Transfer a defaulted promise
- Extract emotional energy from a broken promise

玩家进入方式

- You are a Courier whose ledger is glowing dangerously bright.
- You are an Auditor who just discovered a massive discrepancy in the Gilded Tongues' taxes.

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertical cliff city, every witnessed spoken promise gains measurable weight and a tax liability. When households cannot pay, bonded couriers physically carry the sealed obligation through fragile routes to creditors, guarantors, or courts.

规则与制度

- A promise becomes assessable only when a registered witness or lawful echo can establish its wording.
- Three matching licensed readings make a promise-tax assessment binding unless the Echo Court grants reweighing.
- Liability follows the recorded witness chain; transfer requires acceptance by the recipient or a court order.

活动与压力

- Appeal, Reweigh, Publish · Gather witness tokens in Echo Court, secure three controlled readings in Triple Reading Chamber, and negotiate whether an assessment stands. A fair result lowers Promise Tax Arrears and [...] · The third reading becomes binding before unstable chamber echoes contaminate further cases.
- Refuse, Reroute, Discharge · Triage caskets at Burden Sorting Post, organize refusal at Courier Refusal Shelter, and negotiate a safe route through Anchor Gate and Lift Mouth. Successful delivery reduces Courier Burden [...] · Decay clocks, legal deadlines, and overload flags force unequal dispatch priorities.

人物与目标

- Mara Venn · Contradiction Reader of the Third Brass — Prove that Treasury-neglected chamber fractures caused mass overassessment, forcing the Office of Spoken Weights to reduce promise_tax_arrears through binding reweighings.
- Orris Kett · Bond-Seal Refusal Captain — Win recognized refusal authority from the Burden Post without triggering a dispatch strike that worsens cliff_route_access or promise decay.
- Seli Quoin · Listening-Bolt Cooperative Rigger — Secure cooperative control of anchor repairs from the Bell Treasury while reopening cliff_route_access without concealing dangerous courier loads.

地点与用途

- Triple Reading Chamber — The Office of Spoken Weights and Guild of Licensed Weighers capture witnessed promises; three matching balance readings bind tax assessments. Distorted readings expose changes in civic_resonance_stability, which later [...]
- Threshold Lien Office — Inspectors convert binding assessments into household liens, visibly threatening lift keys and cistern shares while ledge households petition for exemptions. Rising promise_tax_arrears here increases dispatch volume at the [...]
- Burden Sorting Post — The Burden Post stores and prioritizes sealed obligations by decay risk, deadline, and receiver capacity. Higher promise_tax_arrears sends more caskets here; rising courier_burden then produces congestion and closures [...]

物件

- Quartet of Promise Weights · Four calibrated brass weights for testing a promise's duration, scope, risk, and dependents. Licensed readings are admissible when three sets [...]
- Household Arrears Dial · A wall-mounted brass dial that advances with posted assessments and retreats when vowmarks clear. A black sector marks the household's [...]
- Courier Strain Chime · Harness chimes change pitch as carried liability approaches the legal burden cap, warning both courier and Warden gate crews.

可能采取的行动

- Triple-Read a Captured Promise
- Refuse an Unstable Casket
- Reweigh a Contested Echo

玩家进入方式

- A red overload flag at Burden Sorting Post forces a choice between delaying legal dispatches and risking promise decay.
- A household asks for representation before a third reading in Triple Reading Chamber makes its disputed tax binding.

Q07 · 第 3 / 6 场 · 设计 A

共同生成要求

Below a planet-scale weather engine, vendors sell unfinished fogs, monsoons, hail songs, wind corridors, and drought endings before they are released into the sky. Build exactly six connected, functionally distinct market rooms and twelve socially entangled agents. Every weather lot should create concrete local changes to visibility, routes, inventories, bargaining leverage, and public safety. Include one or two large weather instruments or containers per room. Use storm-gray canvas, celadon instruments, electric-yellow kite silk, magenta warning thread, wet charcoal floors, and silver condensation in a coherent top-down pixel-art canon. Avoid neon cyberpunk, generic magic shops, Beijing references, signs, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- Vendors sell unfinished meteorological phenomena before they are released into the planetary sky.

规则与制度

- No weather may be released within market limits without a Magenta Seal.
- Visibility disputes are settled by the Mist-Grader's hygrometer.
- All rain lots must be mineral-certified by a Rain-Taster.

活动与压力

- Weather Trading · Buy raw weather components, have them certified, and sell them to sky-launchers. · Market prices fluctuate based on the current sky conditions.
- Atmospheric Maintenance · Repair leaking pipes and stabilize volatile weather lots to keep the market safe. · Containment failures cause local environmental hazards.

人物与目标

- Vaelen the Fog-Steward · Mist-Grader — To expose the counterfeit 'Low-Cloud' being sold by Kaelith.
- Kaelith the Monsoon Broker · Weather Merchant — To pay off her debt to Vaelen before her stalls are seized.
- Bram the Hail-Smith · Ice Artisan — To create a 'Perfect Octave' storm for the Sky-Release festival.

地点与用途

- The Fog Bottling Yard — Condensing and grading low-altitude visibility hazards
- The Monsoon Gallery — Displaying high-volume precipitation lots
- The Hail Song Foundry — Forging acoustic ice pellets and storm percussion

物件

- Monsoon Canister · A heavy celadon jar containing a localized monsoon.
- Silver Mist Vial · A small vial of high-density unfinished fog.
- Musical Hail · A piece of ice shaped to ring at a specific frequency.

可能采取的行动

- Sample Weather
- Certify Lot
- Tether Wind

玩家进入方式

- Arriving as a weather-futures trader at the Monsoon Gallery.
- Starting as a delivery apprentice at the Wind Corridor Hub.

世界概述

- Beneath a planet-scale weather engine, vendors trade unfinished atmospheric phenomena that alter local visibility and safety.

规则与制度

- All weather transactions must be notarized by a Cloud Clerk.
- Unfinished storms cannot be released within market limits.
- Bartering with atmospheric pressure is strictly regulated.

活动与压力

- The Weather Trade · Players acquire raw atmospheric data, refine it into stable weather patterns, and sell it to the highest bidder. · Rapidly falling air pressure threatens to collapse the market stalls.
- Bureaucratic Sabotage · Players navigate the complex web of Cloud Clerk regulations to smuggle illegal weather events. · The arrival of the Grand Inspector is imminent.

人物与目标

- Vaelen the Static-Stitcher · Master Kite-Silk Weaver — To weave a sail capable of navigating the Great Void Storm
- Kaelith of the Low-Pressure · Fog-Bottling Merchant — To monopolize the trade of 'Midnight Smog' for the Drip-Feed Lounge
- Orlo the Grounded · Barometric Dispute Arbitrator — To restore the equilibrium of the market's artificial atmosphere

地点与用途

- Thunder-Capture Stall — Trading high-voltage atmospheric discharge
- Fog-Bottling Depot — Packaging unfinished visibility-altering mists
- Barometric Dispute Office — Resolving weather delivery failures

物件

- Unfinished Morning Fog · A swirling jar of thick, grey vapor that never quite settles into a dew. Used for tactical concealment.
- Monsoon in a Jar · A pressurized vessel containing a localized downpour. Release to instantly drench a 10-meter radius.
- Crystalline Hail Song · A frozen shard that emits the rhythmic sound of a winter storm when held against the ear.

可能采取的行动

- Siphon Humidity
- Forge Barometric Seal
- Bribe the Wind-Gauger

玩家进入方式

- A disgraced meteorologist seeking a lost monsoon.
- A merchant arriving with a shipment of bottled lightning.

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

• A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

规则与制度

- Prioritize collective well-being over individual gain when resources are scarce.
- All passengers are expected to contribute to the maintenance of the train's vital systems, including hydroponics.
- Decisions impacting the entire train's welfare must be debated and approved by relevant institutional representatives.

活动与压力

- Crop Management & Distribution · Players collaborate to maintain optimal crop health and ensure fair distribution of produce, balancing the needs of the train's population with the Guild's ecological principles. · Fluctuations in S_CROP_HEALTH due to environmental factors or labor shortages, activating the causal link: 'If crop health is high due to diligent tending, Platform access for all passengers [...]
- Railway Operations & Passenger Trust · Players work to keep the train running efficiently and safely, addressing technical issues and managing passenger expectations to maintain trust in the system. · Unexpected system failures or delays impacting S_RAIL_EFFICIENCY, activating the causal link: 'If railway operations are consistently smooth and on schedule, Passenger trust in the system increases'.

人物与目标

- Elara Vance · Greenhouse Guild Master — To ensure optimal S_CROP_HEALTH and biodiversity, thereby strengthening the INST_GREEN_GUILD's influence and securing S_PLATFORM_ACCESS for essential supplies.
- Kaelen Thorne · Chief Train Conductor — To maintain peak S_RAIL_EFFICIENCY and order, upholding the INST_RAIL_AUTH's mandate and restoring S_PASSENGER_TRUST in the system.
- Seraphina 'Sera' Bellwether · Passenger Council Chair — To advocate for fair access and transparency, ensuring the INST_PASS_COUNCIL's voice is heard and improving S_PASSENGER_TRUST across the train.

地点与用途

- Conductor's Control Cabin — Centralized control for rail operations and platform access. Here, S_RAIL_EFFICIENCY is directly managed, affecting S_PASSENGER_TRUST.
- Greenhouse Guild Master's Office — Where master botanists oversee crop health and allocate tending tasks. S_CROP_HEALTH is assessed and S_GUILD_REPUTATION is influenced by decisions made here.
- Passenger Council Assembly Hall — A space for democratic vote among elected passenger representatives to mediate disputes and advocate for fair access. This directly affects S_PASSENGER_TRUST and can influence S_PLATFORM_ACCESS.

物件

- Compact Hydro-Grow Unit · A self-contained, energy-efficient hydroponic unit for personal crop cultivation in small spaces. Features automated nutrient delivery.
- Aurora Berry Seed Packet · Seeds for the highly sought-after Aurora Berry, known for its bioluminescent properties and potent medicinal qualities. Requires specific light spectrum.
- Mini-Tender Drone · A small, agile drone designed for precision pollination and pest detection in dense botanical environments. Operates autonomously.

可能采取的行动

- CertifyProduce
- AllocateTendingTasks
- InspectRailSystems

玩家进入方式

- A critical hydroponic pump malfunctions, threatening crop health.
- A new, highly sought-after rare seed variety is discovered, sparking interest from collectors and brokers.

Q07 · 第 4 / 6 场 · 设计 B

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- A living train where passenger labor determines the route and speed.

规则与制度

- All resource transfers must be logged in the Council Chamber.
- Engineers hold veto power over speed adjustments exceeding 90%.
- Botanists must approve any seed removal from the Archive.

活动与压力

- Nutrient Enrichment Cycle · Hydroponics Specialists and Head Botanists work together to improve soil health, which eventually increases crop yield and stabilizes train speed. · Soil fertility is currently low, limiting the train's long-term sustainability.
- Bio-fuel Optimization · Bio-Engineers and Fuel Technicians convert crop yields into fuel to increase engine output, directly impacting train speed. · Engine output is insufficient to meet the Conductors Guild's speed requirements.

人物与目标

- Kaelen Vane · Chief Conductor — Maintain train_speed above 80% to satisfy Conductors Guild
- Elara Thorne · Head Botanist — Increase crop_yield to satisfy Botany Bureau
- Jaxon Reed · Maintenance Lead — Improve soil_fertility to satisfy Engineers

地点与用途

- Throttle Control Hub — Conductors Guild hub where train speed is regulated; high speed here triggers vibration-related labor efficiency drops in the Commuter Lounge.
- Seed Archive — Storage for rare seeds; nutrient enrichment here increases crop yield in the Hydroponics Bay after 2 cycles.
- Hydroponics Bay — Crop cultivation area; increased biomass here is converted to bio-fuel to boost train speed.

物件

- Brass Soil Probe · A handheld brass device that glows soft amber when soil fertility is optimal. Essential for monitoring the Botany Bureau's mandates.
- Luminescent Fern Spores · Rare spores that thrive in high-vibration environments. Highly sought after by Botanists to meet diversity quotas.
- Conductors Guild Pass · A stamped brass token granting passage. Valid only when train speed exceeds 80% capacity.

可能采取的行动

- EnrichSoil
- CalibrateThrottle
- HarvestRareSeeds

玩家进入方式

- The Commuter Lounge during a scheduled shift change.
- The Maintenance Yard after a reported engine vibration spike.

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In the cliffside city of Veridia, spoken promises are tangible, weighed, and taxed. Unpaid promises become physical burdens, carried by couriers between households, shaping the city's economy and social fabric.

规则与制度

- All spoken promises of significant weight must be registered with the Public Promise Registrar.
- Failure to fulfill a registered promise incurs a promise tax, assessed by the Promise Tax Auditor.
- Promise debts are legally binding and can be collected by Senior Debt Couriers.

活动与压力

- Debt Collection & Enforcement · Senior Debt Couriers actively pursue unpaid promise debts, increasing courier workload and potentially decreasing inter-citizen trust. · High collective promise debt (promise_debt_level) drives increased courier activity (courier_activity_level), straining resources and trust (city_trust_index).
- Promise Tax Assessment & Challenge · Promise Tax Auditors assess new and existing promises, leading to potential challenges from citizens and adjustments by the Council. · Low city tax revenue stability (tax_revenue_stability) forces the Promise Tax Authority to increase enforcement rigor (promise_enforcement_rigor), leading to public scrutiny and potential disputes.

人物与目标

- Elara Vowkeeper · Promise Tax Auditor — To uncover a systemic flaw in the Promise Tax Authority's valuation algorithms that disproportionately burdens the innocent, thereby improving 'city_trust_index' and reforming the PTA's 'promise_enforcement_rigor'.
- Kaelen Swiftfoot · Senior Debt Courier — To expose the corruption within the Courier Guild that allows certain powerful individuals to avoid their promise debts, thereby improving 'courier_union_satisfaction' and 'city_trust_index'.
- Silas Thorne · Shrewd Merchant — To establish a new, less restrictive system for commercial promises that benefits merchants, thereby increasing 'tax_revenue_stability' for the city while also increasing his own wealth and influence among 'City Merchants'.

地点与用途

- Promise Assessment Chamber — Where the Promise Tax Authority (PTA) assesses and taxes spoken promises, directly influencing the 'promise_debt_level' state variable. High activity here increases debt, which then impacts the 'courier_activity_level' in [...]
- Courier Guild Dispatch — The central hub for the Courier Guild (CG), where couriers receive assignments for transporting unpaid promise debts. High 'promise_debt_level' from the Assessment Chamber directly increases the 'courier_activity_level' here, [...]
- Council of Elders Chamber — Where the Council of Elders (CoE) mediates disputes and interprets ancient promise law, directly influencing the 'city_trust_index' and 'promise_enforcement_rigor'. Their decisions here can reduce 'promise_debt_level' city-wide.

物件

- Blank Promise Scroll · A pristine, unblemished scroll of treated parchment, ready to bear the weight of a new promise. Its surface is receptive [...]
- Personal Debt Ledger · A compact, leather-bound ledger for individuals to meticulously track their own outstanding promises and received debts. Essential for maintaining one's [...]
- Pocket Promise Scale · A finely calibrated, miniature brass scale designed to give a rough estimate of a promise's perceived weight and potential tax [...]

可能采取的行动

- RegisterPromise
- AssessPromiseTax
- DeliverDebtNotice

玩家进入方式

- You have just received a notice for an unexpectedly high promise tax on a minor vow.
- A Senior Debt Courier has approached you, demanding payment for a promise you believe was already fulfilled.

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- In a cliffside city, every spoken promise is taxed by weight, while couriers carry unpaid vows between households.

规则与制度

- Every witnessed promise accrues weight-tax until fulfilled, transferred, voided, or paid.
- A stamped vow slip is presumptive evidence, but its wording may be publicly reweighed.
- Bridge passage may be restricted when a household exceeds its posted safety bond.

活动与压力

- Reweigh, settle, reopen · Contest excessive vowweight, assemble witnesses, and settle or amend the result before a bond review closes passage. · Changes unpaid_vowweight and household_liquidity; if balances remain high, activates the unpaid_vowweight-to-bridge_access closure link.
- Custody chain recovery · Trace delayed bundles, repair route failures, and expose or contain tampered echoes before disputes spread. · Changes courier_route_capacity and echo_credibility; prolonged overload activates the courier_route_capacity-to-echo_credibility causal link.

人物与目标

- Mera Venn · Disputed-Vow Reweigher — Win a precedent that lets low-liquidity households split duration taxes, changing household_liquidity and the Weighhouse decision rule.
- Ilyra Quen · Storm-Route Custodian — Secure a neutral storm corridor that prevents bridge_access closures from severing debtor deliveries and worsened household_liquidity.
- Sable Orr · Echo Bailiff and Forgery Listener — Identify the source of circulating forged echoes before compromised rulings trigger bridge_access protests and mass defaults.

地点与用途

- Weighhouse Speaking Hall — The Weighhouse certifies spoken promises and collects tax. Rising unpaid_vowweight is recorded here; overloaded vows are then sent to the Courier Intake Vault.
- Courier Intake Vault — Licensed couriers take custody of unpaid promise bundles and prioritize mature routes. Strained courier_route_capacity here causes late bundles to undermine Echo Court evidence.
- Chain-Gate Bondhouse — Bridge wardens review household safety bonds and chain crossings for delinquent vowweight. Reduced bridge_access here cuts merchant trade at the Bridgehead Exchange afterward.

物件

- Stamped Vow Slip · Brass-edged Weighhouse slip listing spoken terms, witnesses, tax weight, and due date.
- Portable Speaking Scale · A clerk-grade brass scale that weighs wording, duration, and named witnesses in a spoken pledge.
- Sealed Courier Satchel · Waxed windcloth satchel with three custody locks and ribbon slots for unpaid promise bundles.

可能采取的行动

- Reweigh a vow
- Seal a promise bundle
- Tender a safety bond

玩家进入方式

- Carry a late promise bundle whose seal was damaged in a wind crossing.
- Petition to reweigh a family vow that now threatens bridge access.

Q07 · 第 5 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选择 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q07 · 第 6 / 6 场 · 设计 A

共同生成要求

Create a playable Agora world called Clockwork Rain Conservatory. It is a city-sized greenhouse of brass gutters, singing irrigation organs, legal seed vaults, and mechanical rain engines. Citizens trade patent seeds, forged pollen licenses, bottled monsoon gears, heirloom vines, umbrella dueling tokens, rain debts, and weather sheet music. Make the cast strange but socially concrete: rain organists, seed barristers, gutter mechanics, vine debtors, glasshouse smugglers, orchid notaries, umbrella duelists, irrigation auditors, aristocratic gardeners, fungal saboteurs, and petitioners. Every main character must have at least 8 world-specific inventory items, no generic civic fallback. Rooms should be visually distinct and support live negotiation, evidence exchange, repair, blackmail, rituals, trade, and consequences. Common targets: 24 agents; 4 player slots.

世界概述

- A city-sized greenhouse where mechanical rain and legal botany dictate social standing and survival.

规则与制度

- All disputes must be mediated by a licensed Chronometer.
- No physical violence is permitted within the Conservatory walls.
- The ritual of the Rain-Dance must be observed every sunset.

活动与压力

- Litigation Cycle · Players gather evidence of temporal malpractice, present cases to the Gear-Judges, and enforce ritualistic penalties. · The ticking of the Doomsday Clock.
- Maintenance Ritual · Players must navigate the internal machinery to lubricate gears and adjust springs before the rain stops. · Rising heat and failing pressure valves under pressure.

人物与目标

- Vespera Thorne · Chief Hydrologist — To stabilize the atmospheric pressure before the Great Deluge cycle begins.
- Silas Vane · Irrigation Arbitrator — To secure enough water credits to save the dying lower-tier ferns.
- Elara Moss · Seed Geneticist — To engineer a seed that can survive the acidic rain of the outer wastes.

地点与用途

- Patent Seed Vault — Secure storage of genetically modified botanical intellectual property.
- Weather Sheet Music Press — Printing the perforated rolls that control the mechanical rain cycles.
- Irrigation Rights Exchange — Trading floor for water pressure credits and pipe access.

物件

- Brass-Cased Patent Seed: Chrono-Lily · A legally protected seed encased in a brass shell that blooms exactly at the stroke of noon.
- Sheet Music: Gentle Drizzle Sonata · A perforated copper scroll that, when played on a hydro-organ, triggers a localized light rain.
- Irrigation Right: Sector 7 Voucher · A wax-sealed document granting the bearer 48 hours of pressurized nutrient-water flow.

可能采取的行动

- Recalibrate Time-Piece
- File Formal Grievance
- Invoke Ancient Precedent

玩家进入方式

- A newly appointed apprentice arriving at the gates.
- A disgraced lawyer seeking redemption in the clockwork courts.

世界概述

- A city-sized greenhouse where mechanical rain and legal botany dictate social standing and survival.

规则与制度

- Seed patents are absolute; unauthorized growth is a capital crime.
- Rain is a debt; those who cannot pay the water tax are exiled to the dry-zones.
- Umbrella duels are the only legal way to settle disputes outside of court.

活动与压力

- Seed Trade and Litigation · Players acquire rare seeds, verify their patents, and litigate ownership in the Chamber. · Rising seed debts and legal deadlines.
- Mechanical Maintenance and Sabotage · Players repair or sabotage the irrigation systems to control the city's rain. · Leaking pipes and impending monsoon cycles.

人物与目标

- Arbiter Vane · Seed Barrister — To finalize the seizure of the Heirloom Vine from Silas.
- Silas the Vine-Debtor · Vine Debtor — To pay off his debt before his family vine is incinerated.
- Maestro Coda · Rain Organist — To sabotage the rain to reveal the Smuggler's Dock.

地点与用途

- The Great Gutter Hub — central water distribution and trade
- The Seed Litigation Chamber — resolving botanical patent disputes
- The Singing Irrigation Organ — controlling rain through melody

物件

- Brass Tuning Fork · Used to tune irrigation pipes.
- Drizzle Score · Sheet music for a light, refreshing rain.
- Barrister's Sealing Wax · High-quality red wax for legal seals.

可能采取的行动

- inspect_seed_patent
- adjust_irrigation_valve
- challenge_to_umbrella_duel

玩家进入方式

- Arriving as a new Seed Barrister's clerk.
- Entering the Hub as a desperate Petitioner.
