

世界设计比较问卷

Q09 / 独立分发版 · 共 6 场

本编号只分配给一位参与者。无需打开网页，也不需要安装插件。

阅读前，请先了解

每场比较同一个生成要求下的设计 A 与设计 B。来源名称隐藏，没有预设赢家。只评价所示书面设计，不评价图像、真实运行效果或游玩体验。

材料按统一字段、原始顺序和长度上限摘录；[...] 表示原文还有内容。没有展示的内容，不代表完整世界中不存在。文字更长本身不等于更好。

材料保留英文原文。请独立阅读，不要让他人或模型代评。预计约 30–45 分钟，实际时长有待试填确认；可休息或随时停止。

如何填写与交回

Word 版：在“答案”空格直接输入数字，在背景选项旁标记√。PDF 版：打印后填写数字和勾选，拍照或扫描交回。两种格式内容相同，任选一种填写一次即可。

每场先读完 A、B 两页，再填写本场评分页。每题填写一个 1–6 的数字；允许相当或无法判断。可选评论可用中文或英文，不填写姓名、邮箱等个人信息。

参与与数据

参与自愿。收集编号、背景、评分、可选评论和自报用时，用于学术汇总及去标识化报告。评论引用另行征求同意。文件不会自动上传，请交给邀请人。交回前可自行删除；交回后可凭编号申请撤回，汇总公开后可能无法撤回。

邀请人是研究联系渠道；开始前可向其了解答卷接收方式、保存期限、是否有报酬及其他研究安排。不要在本文件填写身份信息。

必填确认（任一项不符合，请停止填写）

已年满 18 岁：☐ 是 ☐ 否 能独立读懂英文材料：☐ 是 ☐ 否

已阅读说明并自愿同意参与：☐ 是 ☐ 否

是否参与过本系统开发或看过其详细结果：☐ 没有 ☐ 有 ☐ 不确定

文字冒险／角色扮演游戏体验（可选）：☐ 没有 ☐ 偶尔 ☐ 经常 ☐ 不回答

Q09 · 第 1 / 6 场 · 设计 A

共同生成要求

A monastery built around a crashed communications satellite sits below a stormy sea dome. Monks, engineers, pearl brokers, signal pirates, and pilgrims trade bandwidth vows, pressure-suit favors, relic access, repair labor, and secret transmissions. Make consequences visible and commercially grounded. Common targets: 25 agents; 4 player slots.

世界概述

- A monastery built around a crashed communications satellite sits below a stormy sea dome where bandwidth is a holy relic.

规则与制度

- Bandwidth is sacred; siphoning is a crime punishable by air-rationing.
- Pressure suits must be inspected weekly by a certified engineer.
- All salvage from the satellite belongs to the Abbot, minus a 20% finder's fee.

活动与压力

- The Salvage Cycle · Divers recover scrap, trade it for chits, and buy better gear to dive deeper. · Oxygen levels and suit integrity.
- The Signal Economy · Monks decode data, brokers trade bandwidth, and pirates try to steal it. · Bandwidth scarcity and Abbot's oversight.

人物与目标

- Abbot Oros · Monastery Leader — To restore the satellite's primary uplink to the stars.
- Silas the Rust-Eater · Master Salvager — To buy his way out of the dome and to the surface.
- Vera the Broker · Bandwidth Trader — To monopolize the signal economy.

地点与用途

- The Satellite Core — Central worship and signal processing.
- Pressure Lock Bazaar — Trading salvage and oxygen.
- The Hydro-Garden — Food production and meditation.

物件

- Fiber-Optic Rosary · A string of beads that pulse with the station's data flow.
- Low-Bandwidth Voucher · A paper slip representing 10MB of data access.
- Pressure Patch Kit · Emergency adhesive for sealing suit breaches.

可能采取的行动

- Siphon Bandwidth
- Patch Pressure Leak
- Decode Holy Ping

玩家进入方式

- Arriving as a new pilgrim on a supply sub.
- Waking up in the med-bay after a salvage accident.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 1 / 6 场 · 设计 B

共同生成要求

A monastery built around a crashed communications satellite sits below a stormy sea dome. Monks, engineers, pearl brokers, signal pirates, and pilgrims trade bandwidth vows, pressure-suit favors, relic access, repair labor, and secret transmissions. Make consequences visible and commercially grounded. Common targets: 25 agents; 4 player slots.

世界概述

- A religious order guards a crashed satellite beneath a sea dome, trading data-relics for survival.

规则与制度

- Data-purity is the highest virtue; corrupted files are considered spiritual sins.
- Commercial transactions must be sanctified by a High Indexer.
- Direct physical contact is forbidden; all interaction occurs via haptic-link.

活动与压力

- The Data Tithe · Players collect fragmented data from the outer hull, purify it in the sanctum, and sell it to visiting merchants. · Oxygen levels and data degradation rates.
- The Heresy Hunt · Players scan the local network for corrupted files and identify the 'heretics' responsible for the breach. · The spreading corruption virus.

人物与目标

- Abbot Kaelen-01 · High Signal-Bearer — To decrypt the 'First Transmission' hidden within the monastery's core memory banks.
- Salvage-Acolyte Nix · Scrap-Merchant and Scavenger — To trade enough components to buy a seat on the next passing freighter.
- Sister Veda · Hydro-Ponic Warden — To engineer a plant species capable of filtering radiation from the station's air.

地点与用途

- Airlock Alpha-9 — Decompression and suit maintenance
- The Signal Altar — Data-relic decryption and worship
- Bandwidth Exchange — Trading data packets for oxygen and food

物件

- Oxidized Data-Bead · A rusted copper sphere containing fragmented liturgical data from the orbital era.
- Pressure-Seal Wax · Thick, synthetic resin used to patch micro-fissures in deep-sea monk habits.
- Bioluminescent Rosary · Prayer beads harvested from deep-sea polyps, pulsing with a rhythmic green light.

可能采取的行动

- Sanctify Data-Stream
- Purge Corrupt Packet
- Negotiate Bandwidth Tithe

玩家进入方式

- A merchant vessel seeking to buy ancient encryption keys.
- A digital pilgrim looking for the original source-code of the Great AI.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 1 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q09 · 第 2 / 6 场 · 设计 A

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- In a city where promises have physical weight, debt is a tangible burden that must be transported by couriers.

规则与制度

- All promises must be weighed by the Scales of Oaths before transit.
- Silence Keepers may seize any asset if the promise-weight exceeds the owner's credit.
- Couriers are forbidden from speaking the contents of the promises they carry.

活动与压力

- The Debt Collection Cycle · Silence Keepers track and seize assets from debtors to reduce aggregate debt. · Increases state_enforcement_intensity, which eventually triggers public unrest.
- The Promise Verification Flow · Auditors and Alchemists process new promises, impacting the total debt volume. · Directly changes state_total_debt, influencing the market trust index.

人物与目标

- Kaelen the Weigher · Senior Auditor of Oaths — Reduce the complexity of promises to lower state_enforcement_intensity
- Vesper the Runner · Lead Courier — Increase transit fees to manipulate group_couriers leverage
- Mora the Voiceless · Community Advocate — Achieve debt forgiveness for the group_debtors

地点与用途

- The Scales of Oaths Chamber — Verify and tax the physical weight of spoken promises; changes state_total_debt.
- The Silent Runners Dispatch — Transport unpaid promises; receives debt volume from Scales of Oaths.
- The Silence Keepers Barracks — Seize assets; increases state_enforcement_intensity based on debt volume.

物件

- Gravity-Sensitive Inkwell · A heavy stone inkwell that darkens in color as the weight of the promise being written increases. Essential for Scales [...]
- Standardized Silence Collar · A cold iron collar that tightens when the wearer attempts to speak a promise they cannot afford to back. Used [...]
- Courier's Lead-Lined Satchel · A reinforced satchel designed to carry high-weight promises without the ink seals leaking through the fabric.

可能采取的行动

- weigh_promise
- seal_contract
- seize_assets

玩家进入方式

- A new courier arriving at The Silent Runners Dispatch seeking their first route.
- A debtor entering The Voiceless Refusal Hall to challenge their seizure notice.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 2 / 6 场 · 设计 B

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In the cliffside city of Veridia, spoken promises are tangible, weighed, and taxed. Unpaid promises become physical burdens, carried by couriers between households, shaping the city's economy and social fabric.

规则与制度

- All spoken promises of significant weight must be registered with the Public Promise Registrar.
- Failure to fulfill a registered promise incurs a promise tax, assessed by the Promise Tax Auditor.
- Promise debts are legally binding and can be collected by Senior Debt Couriers.

活动与压力

- Debt Collection & Enforcement · Senior Debt Couriers actively pursue unpaid promise debts, increasing courier workload and potentially decreasing inter-citizen trust. · High collective promise debt (promise_debt_level) drives increased courier activity (courier_activity_level), straining resources and trust (city_trust_index).
- Promise Tax Assessment & Challenge · Promise Tax Auditors assess new and existing promises, leading to potential challenges from citizens and adjustments by the Council. · Low city tax revenue stability (tax_revenue_stability) forces the Promise Tax Authority to increase enforcement rigor (promise_enforcement_rigor), leading to public scrutiny and potential disputes.

人物与目标

- Elara Vowkeeper · Promise Tax Auditor — To uncover a systemic flaw in the Promise Tax Authority's valuation algorithms that disproportionately burdens the innocent, thereby improving 'city_trust_index' and reforming the PTA's 'promise_enforcement_rigor'.
- Kaelen Swiftfoot · Senior Debt Courier — To expose the corruption within the Courier Guild that allows certain powerful individuals to avoid their promise debts, thereby improving 'courier_union_satisfaction' and 'city_trust_index'.
- Silas Thorne · Shrewd Merchant — To establish a new, less restrictive system for commercial promises that benefits merchants, thereby increasing 'tax_revenue_stability' for the city while also increasing his own wealth and influence among 'City Merchants'.

地点与用途

- Promise Assessment Chamber — Where the Promise Tax Authority (PTA) assesses and taxes spoken promises, directly influencing the 'promise_debt_level' state variable. High activity here increases debt, which then impacts the 'courier_activity_level' in [...]
- Courier Guild Dispatch — The central hub for the Courier Guild (CG), where couriers receive assignments for transporting unpaid promise debts. High 'promise_debt_level' from the Assessment Chamber directly increases the 'courier_activity_level' here, [...]
- Council of Elders Chamber — Where the Council of Elders (CoE) mediates disputes and interprets ancient promise law, directly influencing the 'city_trust_index' and 'promise_enforcement_rigor'. Their decisions here can reduce 'promise_debt_level' city-wide.

物件

- Blank Promise Scroll · A pristine, unblemished scroll of treated parchment, ready to bear the weight of a new promise. Its surface is receptive [...]
- Personal Debt Ledger · A compact, leather-bound ledger for individuals to meticulously track their own outstanding promises and received debts. Essential for maintaining one's [...]
- Pocket Promise Scale · A finely calibrated, miniature brass scale designed to give a rough estimate of a promise's perceived weight and potential tax [...]

可能采取的行动

- RegisterPromise
- AssessPromiseTax
- DeliverDebtNotice

玩家进入方式

- You have just received a notice for an unexpectedly high promise tax on a minor vow.
- A Senior Debt Courier has approached you, demanding payment for a promise you believe was already fulfilled.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 2 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q09 · 第 3 / 6 场 · 设计 A

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

规则与制度

- Respect Courthouse rulings on land use and asset allocation.
- Public forums are the primary venue for community feedback on public works.
- Reclamation Guild projects must adhere to approved designs and material sourcing.

活动与压力

- Reclamation Project Approval · Players influence the approval and execution of shoreline reclamation projects, balancing community needs with engineering feasibility and legal mandates. This loop directly changes the SHORELINE_CONFIG state variable.
- The need for shoreline stability and improved access versus limited resources and public dissent.
- Access Equity Debate · Players engage in discussions and actions to alter neighborhood sea access, often in response to new reclamation projects or existing inequalities. This loop directly changes the NEIGHBORHOOD_ACCESS state [...]
- Growing public dissatisfaction over unequal access and the economic implications for various groups.

人物与目标

- Elara "The Tide-Watcher" · Coastal Resident Advocate — To protect NEIGHBORHOOD_ACCESS for her community by influencing PUBLIC_SENTIMENT and challenging RECLAMATION_GUILD projects.
- Kaelen "The Builder" · Guild Master Engineer — To efficiently complete RECLAMATION_GUILD projects, potentially using CONFISCATED_GOODS_INVENTORY, while managing PUBLIC_SENTIMENT.
- Judge Theron "The Arbiter" · Courthouse Registry Clerk — To uphold the COURTHOUSE mandate, ensure fair distribution of CONFISCATED_GOODS_INVENTORY, and maintain public order by managing PUBLIC_SENTIMENT.

地点与用途

- Courthouse Registry — To process legal documents and officially record confiscated goods, directly impacting the 'Confiscated Goods Inventory' state variable. Decisions here lead to objects being moved to the Confiscated Goods [...]
- Reclamation Guild Workshop — Where confiscated objects are processed and prepared for shoreline construction, directly influencing the 'Shoreline Configuration' state variable. Materials prepared here are then used in the Shoreline Construction Site.
- Shoreline Construction Site — The active zone where new shoreline sections are built using reclaimed materials, directly changing the 'Shoreline Configuration' and subsequently 'Neighborhood Sea Access'.

物件

- Smuggler's Compass · A tarnished brass compass, rumored to point not north, but towards the nearest hidden cove. Confiscated from a notorious sea-runner.
- Illicit Dredge Permit · A forged permit for unauthorized seabed dredging, bearing a suspiciously official-looking seal. Evidence of past illegal resource extraction.
- Gilded Spyglass · A beautifully crafted spyglass with a gold-leaf finish, once belonging to a wealthy, now-exiled land speculator.

可能采取的行动

- PetitionCouncil
- SurveyShoreline
- AuctionConfiscatedGoods

玩家进入方式

- A new shoreline reclamation project has been announced, sparking debate over its impact on sea access.
- The Courthouse is holding a public auction of confiscated goods, some of which are valuable construction materials.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 3 / 6 场 · 设计 B

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

规则与制度

- All property disputes must be filed in triplicate at the Zoning Permit Office.
- The Tribunal Chamber requires formal attire and silence during adjudication.
- Salvaged items are state property until processed by the Reclamation Guild.

活动与压力

- The Litigation Grind · Players file and argue cases to influence the confiscation rate, directly impacting the material stockpile. · High volume of cases increases the state_confiscation_rate, leading to more debris.
- The Salvage Cycle · Scavengers and Guild members compete to process debris, affecting the material stockpile and shoreline depth. · Efficient sorting increases state_material_stockpile, which eventually extends the shoreline.

人物与目标

- Elara the Silt-Sifter · Lead Scavenger — Influence state_shoreline_depth to create new salvage zones for the Shoreline Scavengers.
- Kaelen the Zoning Architect · Zoning Permit Officer — Control state_confiscation_rate to favor specific districts over others.
- Vane the Tide-Merchant · Waterfront Trade Liaison — Protect group_merchants dependency on state_district_access.

地点与用途

- The Tribunal Chamber — Adjudicate property disputes; changes state_confiscation_rate
- Sorting Crane Yard — Process confiscated debris; changes state_material_stockpile
- Zoning Permit Office — Allocate land rights; changes state_district_access

物件

- Obsidian Gavel of the High Tribunal · A heavy, brutalist gavel used to finalize confiscation orders. It vibrates when near disputed property.
- Hydro-Static Depth Gauge · Measures the current shoreline depth. Essential for predicting land reclamation shifts.
- Zone A Water Access Permit · A laminated legal document granting temporary water access rights. Highly coveted by merchants.

可能采取的行动

- File Litigation
- Forge Permit
- Sabotage Crane

玩家进入方式

- A desperate scavenger arriving at the Sorting Crane Yard with a rare find.
- A merchant seeking a permit at the Zoning Permit Office to save their dock.

Q09 · 第 3 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q09 · 第 4 / 6 场 · 设计 A

共同生成要求

A chain of walking polar cities crosses an aurora-lit ice shelf, trading heat, route rights, food cultures, spare legs, weather predictions, and citizenship favors. Build a dense social simulation around convoy scheduling, fuel debt, inter-city marriages, border inspections, black-market engine parts, and public ceremonies where each city's reputation can rise or fall. Common targets: 25 agents; 4 player slots.

世界概述

- Walking polar cities traverse an endless ice shelf, managing heat debt and political alliances under the aurora.

规则与制度

- All migration path deviations must be ratified by the High Chancellor.
- Resource sharing is mandatory during solar eclipses.
- No city may deploy anchors within three leagues of a rival's foundation.

活动与压力

- The Resource Race · Scout for rare minerals, file legal claims at the Court, and defend extraction sites from rival city-states. · Depleting fuel reserves.
- Bureaucratic Espionage · Infiltrate rival archives to steal migration routes and blackmail officials for favorable docking rights. · Impending border closure.

人物与目标

- Vespera Vane · Route Rights Merchant — To secure a monopoly on the Southern Thaw corridor before the Great Migration
- Kaelen Frost-Weld · Master Pit-Technician — To prevent the catastrophic collapse of the city's third leg before the winter storm.
- Archivist Elara · Favor Custodian — To find the missing record that proves her family's right to stay in the city.

地点与用途

- Heat Exchange Hub 01 — Trading thermal credits and steam pressure
- Engine Part Scrapyard — Salvaging mechanical components for city legs
- Aurora Navigation Bridge — Plotting routes across the ice shelf

物件

- Piston-Seal Gasket · Reinforced rubber and brass seal for the main hydraulic legs of a migrating city. Essential for preventing steam leaks in [...]
- Aurora-Charged Thermal Cell · A high-capacity battery that stores atmospheric static from the Aurora. Provides 48 hours of emergency heat for a standard residential [...]
- Glacier-Pass Transit Visa · An official stamped steel plate granting a crawler passage through the High-Ice Sovereignty. Valid for one migration cycle.

可能采取的行动

- Forge Migration Ledger
- Siphon Geothermal Core
- Blackmail District Overseer

玩家进入方式

- A disgraced cartographer seeking to clear their name.
- A resource scout who discovered a forbidden oasis.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 4 / 6 场 · 设计 B

共同生成要求

A chain of walking polar cities crosses an aurora-lit ice shelf, trading heat, route rights, food cultures, spare legs, weather predictions, and citizenship favors. Build a dense social simulation around convoy scheduling, fuel debt, inter-city marriages, border inspections, black-market engine parts, and public ceremonies where each city's reputation can rise or fall. Common targets: 25 agents; 4 player slots.

世界概述

- A chain of walking polar cities crosses an aurora-lit ice shelf, trading heat, route rights, and citizenship favors.

规则与制度

- Heat is the only true currency; all debts are ultimately settled in thermal units.
- Citizenship is a privilege, not a right, and can be revoked for wasting resources.
- Inter-city marriages must be approved by the High Broker and the Council.

活动与压力

- Heat Management · Players must balance the city's heat production with the needs of the citizens and the demands of trade. · The temperature is dropping as the city moves further north.
- Diplomatic Intrigue · Players navigate the complex relationships between the walking cities to secure resources and route rights. · A rival city is gaining influence in the Council.

人物与目标

- High Broker Vane · Heat Broker — To monopolize thermal credits before the deep winter hits.
- Chief Navigator Kael · Route Navigator — To find the 'Lost Summer' valley mentioned in ancient scrolls.
- Leg-Smith Grog · Engineer — To replace the city's legs with a more efficient tread system.

地点与用途

- The Central Heat Exchange — Primary trade of thermal energy units
- The Aurora Observation Deck — Diplomatic meetings and weather prediction
- Leg-Works Maintenance Bay — Repairing the massive walking legs of the city

物件

- Thermal Energy Unit · A small, glowing canister containing pressurized steam.
- Shifting Ice Map · A map that updates in real-time to show the movement of the ice shelf.
- Aurora Goggles · Protective eyewear that filters out the intense glare of the aurora.

可能采取的行动

- Trade Thermal Units
- Inspect Travel Permit
- Calibrate Engine Valve

玩家进入方式

- Arriving as a refugee from a fallen city.
- Being hired as a temporary maintenance worker.

Q09 · 第 5 / 6 场 · 设计 A

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

规则与制度

- All spoken promises must be weighed in grams of lead foil before they can be filed
- Unpaid vows accrue interest daily and are subject to summary erasure by the Silent Office

活动与压力

- Tax Collection Dispute · Weighing spoken promises and levying heavy debt taxes on reluctant orators · debt_load
- Route Auction and Transit · Auctioning vertical transport routes to the lowest bidder under threat of cliffside archers · courier_speed

人物与目标

- Vaelen Vance · Chief Weighmaster — Expand tax collection mandates across all districts to reduce default_rate
- Lyra Vane · Guild Master — Auction routes to the lowest bidder to reduce transit latency
- Silas Vance · Chief Inquisitor — Expand summary erasure of idle vows to control silence_spread

地点与用途

- The Grand Scale — Weigh spoken promises and levy debt taxes. State variable debt_load increases here, which affects default_rate in the silent office.
- The Unbound Guild Hall — Transport unpaid vows across vertical drops. State variable courier_speed is managed here, affecting transit latency.
- The Silent Office — Eradicate unfulfilled contracts before they rot. State variable default_rate changes here, affecting silence_spread.

物件

- Standard Vow Token · A heavy disk of raw lead stamped with the seal of the Grand Balance, used to prepay syllable taxes.
- Unbound Courier Pouch · A treated leather bag designed to muffle restless notes so they do not accrue transit interest.
- Pocket Syllable Scale · Precision balance used by citizens to weigh spoken promises before registering them with bailiffs.

可能采取的行动

- Weigh Syllables
- Levy Lead Tax
- Auction Vertical Route

玩家进入方式

- Arrive at The Grand Scale to contest a lead tax receipt
- Inspect whispering notes at The Unbound Guild Hall before dispatch

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 5 / 6 场 · 设计 B

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertiginous canyon city, spoken vows take on literal physical mass. The state taxes speech by weight upon utterance, and couriers must physically haul defaulted promises between precariously perched households.

规则与制度

- No sworn vow may be whispered within earshot of an Excise balance beam without paying the ambient acoustic fee.
- A promise-capsule dropped into the abyss cannot be redeemed or litigated once the third echo fades.
- Grinding a covenant before the Silence Assembly delivers a final seal incurs immediate physical custody of the debtor's voice-token.

活动与压力

- Excise Tariff Adjustment & Debt Impound Loop · Assayers weigh incoming promise capsules against registered balances, impounding over-weight vows and raising transit costs when strain spikes, directly driving state_transit_cost and altering state_promise_backlog. · Impounded spoken capsules pile up, rapidly increasing Unsettled Promise Mass until couriers face total gridlock.
- Gantry Rigging Strain Relief & Abyss Purge Loop · Riggers monitor cable tension under heavy debt traffic, dumping abandoned vow canisters into the depths or conducting emergency repairs, directly modifying state_bridge_strain and state_promise_backlog. · Pulley cables are fraying under physical promise weight, risking a catastrophic bridge snap if cargo is not cut.

人物与目标

- Tavish Vane · Senior Balance Bailiff — Force the Gantry Runners Syndicate to surrender defaulted promise ampoules to relieve state_bridge_strain
- Maren Kye · Gantry Line Marshal — Re-route courier traffic across secondary spans to prevent bridge failure without paying Excise surcharges
- Silas Fenn · Silence Mortar Scrivener — Dissolve toxic public vows to create structural mortar, challenging Excise hoarding of broken pledges

地点与用途

- Excise Weigh-Beam Registry — The Acoustic Excise balances physical pledge-mass against civic ledgers; increasing state_transit_cost here drives Under-cleft households in the Low-Cleft Depot to trade unbonded speech.
- Gantry Cable Rigging Depot — Abyss Couriers stage and dispatch heavy floating promises across canyon bridges; rising state_promise_backlog here directly increases state_bridge_strain on the Gantry Cable Rigging Depot spans.
- The Silence Assembly Mortar Basin — The Silence Assembly pulverizes adjudicated breached vows into civic masonry paste to reinforce weakened cliff ledges.

物件

- Excise Tuning Cudgel · A heavy bronze rod with split tines, used by Bell-warden bailiffs to vibrate and shatter unregistered speech-capsules.
- Lead-Sealed Speech Ampoule · A thick blown-glass capsule filled with dense, luminescent vapor containing a recorded promissory oath.
- Gantry Acoustic Balance · A brass beam balance calibrated with harmonic counterweights to determine the tax liability of spoken debt.

可能采取的行动

- AssaySpeechPledgeMass
- ImpoundSpeechCapsule
- ZiplineFreightRun

玩家进入方式

- Arrive as an audit-deputy assigned to inspect the overtaxed balance beams at the Excise Weigh-Beam Registry.
- Descend into the Gantry Runners Bivouac as an out-of-work courier seeking lucrative defaulted promise routes.

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q09 · 第 6 / 6 场 · 设计 A

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- In a colossal glass rail interchange, platform boarding passes are granted only to travelers who contract to cultivate and maintain the train life-support gardens during their journey.

规则与制度

- Passengers must maintain active crop maintenance contracts to traverse express turnstiles.
- Uncertified germplasm transfers outside the Canopy Seed Reserve Bank constitute botanical contraband.
- Union picket cordons at Hydroponic Trough Staging Bay require formal mediation before forceful clearance.

活动与压力

- Labor Contract Clearance Loop · Players audit passenger crop vitality logs and issue boarding scrip at turnstiles to regulate platform queue density and keep oxygen reserves stable. · High platform queue density risks concourse unrest and automated gate lockouts.
- Blight Containment and Seed Requisition Loop · Agronomists identify canopy rot, requisition high-yield germplasm from the reserve bank, and treat affected foliage to restore canopy crop health. · Declining canopy crop vitality forces environmental dampeners to reduce long-haul departures.

人物与目标

- Vaelen Cruz · Chief Turnstile Arbiter — Enforce Platform Dispatch Syndicate boarding mandates to prevent train oxygen deficits while limiting union-backed gate shutdowns
- Mirela Vance · Union Deck Steward — Empower the Transit Planters Union to enforce mandatory rest intervals and fair seed rations against the Platform Dispatch Syndicate
- Dr. Kaelen Thorne · Chief Carriage Agronomist — Enforce Arboretum Oversight Board diversity quotas to stabilize oxygen generation aboard long-haul carriages

地点与用途

- Central Concourse Labor Bureau — Processes passenger transit labor contracts, directly modifying state_platform_congestion by binding commuters to carriage crop shifts before passing them to the boarding airlocks.
- Canopy Seed Reserve Bank — Manages and rations state_rare_seed_stock, where stock depletion triggers emergency allotments to lower gates during peak transit hours.
- Express Platform Turnstile Gate 1 — Platform Dispatch Syndicate checkpoint that locks boarding gates whenever state_canopy_crop_health falls below safe life-support quotas.

物件

- Brass Pneumatic Moisture Gauge · Vintage steam-valve pressure dial with a brass probe, designed to measure hydroponic moisture and nutrient density.
- Titanium Vine-Pruning Shears · Ergonomic bypass pruning shears with self-oiling joints, essential for high-canopy trellis maintenance shifts.
- Aerated Tillage Trowel · Perforated bronze hand trowel used by Root-Tender migrants to loosen submerged aggregate without slicing delicate roots.

可能采取的行动

- Pneumatic_Stamp_Contract
- Inoculate_Hydro_Trough
- Audit_Spore_Load

玩家进入方式

- Arrive at Central Concourse Labor Bureau holding expired hydroponic transit scrip.
- Report to Carriage Agronomy Oversight Lab following a canopy blight alert.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 6 / 6 场 · 设计 B

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- A living train where passenger labor determines the route and speed.

规则与制度

- All resource transfers must be logged in the Council Chamber.
- Engineers hold veto power over speed adjustments exceeding 90%.
- Botanists must approve any seed removal from the Archive.

活动与压力

- Nutrient Enrichment Cycle · Hydroponics Specialists and Head Botanists work together to improve soil health, which eventually increases crop yield and stabilizes train speed. · Soil fertility is currently low, limiting the train's long-term sustainability.
- Bio-fuel Optimization · Bio-Engineers and Fuel Technicians convert crop yields into fuel to increase engine output, directly impacting train speed. · Engine output is insufficient to meet the Conductors Guild's speed requirements.

人物与目标

- Kaelen Vane · Chief Conductor — Maintain train_speed above 80% to satisfy Conductors Guild
- Elara Thorne · Head Botanist — Increase crop_yield to satisfy Botany Bureau
- Jaxon Reed · Maintenance Lead — Improve soil_fertility to satisfy Engineers

地点与用途

- Throttle Control Hub — Conductors Guild hub where train speed is regulated; high speed here triggers vibration-related labor efficiency drops in the Commuter Lounge.
- Seed Archive — Storage for rare seeds; nutrient enrichment here increases crop yield in the Hydroponics Bay after 2 cycles.
- Hydroponics Bay — Crop cultivation area; increased biomass here is converted to bio-fuel to boost train speed.

物件

- Brass Soil Probe · A handheld brass device that glows soft amber when soil fertility is optimal. Essential for monitoring the Botany Bureau's mandates.
- Luminescent Fern Spores · Rare spores that thrive in high-vibration environments. Highly sought after by Botanists to meet diversity quotas.
- Conductors Guild Pass · A stamped brass token granting passage. Valid only when train speed exceeds 80% capacity.

可能采取的行动

- EnrichSoil
- CalibrateThrottle
- HarvestRareSeeds

玩家进入方式

- The Commuter Lounge during a scheduled shift change.
- The Maintenance Yard after a reported engine vibration spike.

请读完本场 A 与 B 两份材料后再评分。

Q09 · 第 6 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

完成与交回

可选：我同意去除身份信息后引用我的评论。☐ 是 ☐ 否（不勾选视为未同意）

自报阅读与填写用时（不含休息，可选）：_____ 分钟

请保留编号 Q09，将本份文件／清晰照片交给邀请人。感谢参与。
