

世界设计比较问卷

Q11 / 独立分发版 · 共 6 场

本编号只分配给一位参与者。无需打开网页，也不需要安装插件。

阅读前，请先了解

每场比较同一个生成要求下的设计 A 与设计 B。来源名称隐藏，没有预设赢家。只评价所示书面设计，不评价图像、真实运行效果或游玩体验。

材料按统一字段、原始顺序和长度上限摘录；[...] 表示原文还有内容。没有展示的内容，不代表完整世界中不存在。文字更长本身不等于更好。

材料保留英文原文。请独立阅读，不要让他人或模型代评。预计约 30–45 分钟，实际时长有待试填确认；可休息或随时停止。

如何填写与交回

Word 版：在“答案”空格直接输入数字，在背景选项旁标记√。PDF 版：打印后填写数字和勾选，拍照或扫描交回。两种格式内容相同，任选一种填写一次即可。

每场先读完 A、B 两页，再填写本场评分页。每题填写一个 1–6 的数字；允许相当或无法判断。可选评论可用中文或英文，不填写姓名、邮箱等个人信息。

参与与数据

参与自愿。收集编号、背景、评分、可选评论和自报用时，用于学术汇总及去标识化报告。评论引用另行征求同意。文件不会自动上传，请交给邀请人。交回前可自行删除；交回后可凭编号申请撤回，汇总公开后可能无法撤回。

邀请人是研究联系渠道；开始前可向其了解答卷接收方式、保存期限、是否有报酬及其他研究安排。不要在本文件填写身份信息。

必填确认（任一项不符合，请停止填写）

已年满 18 岁：☐ 是 ☐ 否 能独立读懂英文材料：☐ 是 ☐ 否

已阅读说明并自愿同意参与：☐ 是 ☐ 否

是否参与过本系统开发或看过其详细结果：☐ 没有 ☐ 有 ☐ 不确定

文字冒险／角色扮演游戏体验（可选）：☐ 没有 ☐ 偶尔 ☐ 经常 ☐ 不回答

Q11 · 第 1 / 6 场 · 设计 A

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertiginous canyon city, spoken vows take on literal physical mass. The state taxes speech by weight upon utterance, and couriers must physically haul defaulted promises between precariously perched households.

规则与制度

- No sworn vow may be whispered within earshot of an Excise balance beam without paying the ambient acoustic fee.
- A promise-capsule dropped into the abyss cannot be redeemed or litigated once the third echo fades.
- Grinding a covenant before the Silence Assembly delivers a final seal incurs immediate physical custody of the debtor's voice-token.

活动与压力

- Excise Tariff Adjustment & Debt Impound Loop · Assayers weigh incoming promise capsules against registered balances, impounding over-weight vows and raising transit costs when strain spikes, directly driving state_transit_cost and altering state_promise_backlog. · Impounded spoken capsules pile up, rapidly increasing Unsettled Promise Mass until couriers face total gridlock.
- Gantry Rigging Strain Relief & Abyss Purge Loop · Riggers monitor cable tension under heavy debt traffic, dumping abandoned vow canisters into the depths or conducting emergency repairs, directly modifying state_bridge_strain and state_promise_backlog. · Pulley cables are fraying under physical promise weight, risking a catastrophic bridge snap if cargo is not cut.

人物与目标

- Tavish Vane · Senior Balance Bailiff — Force the Gantry Runners Syndicate to surrender defaulted promise ampoules to relieve state_bridge_strain
- Maren Kye · Gantry Line Marshal — Re-route courier traffic across secondary spans to prevent bridge failure without paying Excise surcharges
- Silas Fenn · Silence Mortar Scrivener — Dissolve toxic public vows to create structural mortar, challenging Excise hoarding of broken pledges

地点与用途

- Excise Weigh-Beam Registry — The Acoustic Excise balances physical pledge-mass against civic ledgers; increasing state_transit_cost here drives Under-cleft households in the Low-Cleft Depot to trade unbonded speech.
- Gantry Cable Rigging Depot — Abyss Couriers stage and dispatch heavy floating promises across canyon bridges; rising state_promise_backlog here directly increases state_bridge_strain on the Gantry Cable Rigging Depot spans.
- The Silence Assembly Mortar Basin — The Silence Assembly pulverizes adjudicated breached vows into civic masonry paste to reinforce weakened cliff ledges.

物件

- Excise Tuning Cudgel · A heavy bronze rod with split tines, used by Bell-warden bailiffs to vibrate and shatter unregistered speech-capsules.
- Lead-Sealed Speech Ampoule · A thick blown-glass capsule filled with dense, luminescent vapor containing a recorded promissory oath.
- Gantry Acoustic Balance · A brass beam balance calibrated with harmonic counterweights to determine the tax liability of spoken debt.

可能采取的行动

- AssaySpeechPledgeMass
- ImpoundSpeechCapsule
- ZiplineFreightRun

玩家进入方式

- Arrive as an audit-deputy assigned to inspect the overtaxed balance beams at the Excise Weigh-Beam Registry.
- Descend into the Gantry Runners Bivouac as an out-of-work courier seeking lucrative defaulted promise routes.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 1 / 6 场 · 设计 B

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

- A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

规则与制度

- Never speak a promise you cannot afford to have weighed.
- Couriers must be given right of way; their burdens are heavy enough.
- Do not look directly at the colored smoke rising from the Deep Archive.

活动与压力

- The Weight of Words · Auditors weigh promises, increasing taxes, which forces Couriers to handle more defaults. · Increases sv_tax_rate and sv_courier_workload.
- The Breaking Point · Couriers struggle with the workload, leading to strikes and a drop in public trust. · Decreases sv_public_trust and increases sv_unpaid_promises.

人物与目标

- Thaddeus Flint · Rogue Promise Broker — Establish a black market for emotional promises to empower sg_poor_citizens and reduce sv_unpaid_promises.
- Elara Vance · Archive Sentinel Defector — Release stored emotional energy to collapse the Archive and force a reset of sv_tax_rate.
- Silas Thorne · Ministry Auditor — Crush the black market and ensure sg_wealthy_merchants pay their fair share, increasing sv_public_trust.

地点与用途

- Ministry Weighing Station Alpha — Assess and tax the weight of spoken promises (sv_tax_rate).
- Courier Dispatch Yard — Organize and dispatch couriers carrying unpaid promises (sv_courier_workload).
- The Deep Archive Entrance — Store broken promises and extract residual value (sv_archive_capacity).

物件

- Pocket Brass Scale · A portable brass scale used by citizens to estimate the tax weight of their words before speaking.
- Vial of Glowing Ink · Specialized ink used to transcribe promises. It glows brighter based on the emotional gravity of the words.
- Courier's Iron Lockbox · A heavy iron lockbox used by the Guild of Burdened Couriers to transport defaulted promises safely.

可能采取的行动

- Weigh a spoken promise
- Transfer a defaulted promise
- Extract emotional energy from a broken promise

玩家进入方式

- You are a Courier whose ledger is glowing dangerously bright.
- You are an Auditor who just discovered a massive discrepancy in the Gilded Tongues' taxes.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 1 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q11 · 第 2 / 6 场 · 设计 A

共同生成要求

A monastery built around a crashed communications satellite sits below a stormy sea dome. Monks, engineers, pearl brokers, signal pirates, and pilgrims trade bandwidth vows, pressure-suit favors, relic access, repair labor, and secret transmissions. Make consequences visible and commercially grounded. Common targets: 25 agents; 4 player slots.

世界概述

- A religious order guards a crashed satellite beneath a sea dome, trading data-relics for survival.

规则与制度

- Data-purity is the highest virtue; corrupted files are considered spiritual sins.
- Commercial transactions must be sanctified by a High Indexer.
- Direct physical contact is forbidden; all interaction occurs via haptic-link.

活动与压力

- The Data Tithe · Players collect fragmented data from the outer hull, purify it in the sanctum, and sell it to visiting merchants. · Oxygen levels and data degradation rates.
- The Heresy Hunt · Players scan the local network for corrupted files and identify the 'heretics' responsible for the breach. · The spreading corruption virus.

人物与目标

- Abbot Kaelen-01 · High Signal-Bearer — To decrypt the 'First Transmission' hidden within the monastery's core memory banks.
- Salvage-Acolyte Nix · Scrap-Merchant and Scavenger — To trade enough components to buy a seat on the next passing freighter.
- Sister Veda · Hydro-Ponic Warden — To engineer a plant species capable of filtering radiation from the station's air.

地点与用途

- Airlock Alpha-9 — Decompression and suit maintenance
- The Signal Altar — Data-relic decryption and worship
- Bandwidth Exchange — Trading data packets for oxygen and food

物件

- Oxidized Data-Bead · A rusted copper sphere containing fragmented liturgical data from the orbital era.
- Pressure-Seal Wax · Thick, synthetic resin used to patch micro-fissures in deep-sea monk habits.
- Bioluminescent Rosary · Prayer beads harvested from deep-sea polyps, pulsing with a rhythmic green light.

可能采取的行动

- Sanctify Data-Stream
- Purge Corrupt Packet
- Negotiate Bandwidth Tithe

玩家进入方式

- A merchant vessel seeking to buy ancient encryption keys.
- A digital pilgrim looking for the original source-code of the Great AI.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 2 / 6 场 · 设计 B

共同生成要求

A monastery built around a crashed communications satellite sits below a stormy sea dome. Monks, engineers, pearl brokers, signal pirates, and pilgrims trade bandwidth vows, pressure-suit favors, relic access, repair labor, and secret transmissions. Make consequences visible and commercially grounded. Common targets: 25 agents; 4 player slots.

世界概述

- A monastery built around a crashed communications satellite sits below a stormy sea dome where bandwidth is a holy relic.

规则与制度

- Bandwidth is sacred; siphoning is a crime punishable by air-rationing.
- Pressure suits must be inspected weekly by a certified engineer.
- All salvage from the satellite belongs to the Abbot, minus a 20% finder's fee.

活动与压力

- The Salvage Cycle · Divers recover scrap, trade it for chits, and buy better gear to dive deeper. · Oxygen levels and suit integrity.
- The Signal Economy · Monks decode data, brokers trade bandwidth, and pirates try to steal it. · Bandwidth scarcity and Abbot's oversight.

人物与目标

- Abbot Oros · Monastery Leader — To restore the satellite's primary uplink to the stars.
- Silas the Rust-Eater · Master Salvager — To buy his way out of the dome and to the surface.
- Vera the Broker · Bandwidth Trader — To monopolize the signal economy.

地点与用途

- The Satellite Core — Central worship and signal processing.
- Pressure Lock Bazaar — Trading salvage and oxygen.
- The Hydro-Garden — Food production and meditation.

物件

- Fiber-Optic Rosary · A string of beads that pulse with the station's data flow.
- Low-Bandwidth Voucher · A paper slip representing 10MB of data access.
- Pressure Patch Kit · Emergency adhesive for sealing suit breaches.

可能采取的行动

- Siphon Bandwidth
- Patch Pressure Leak
- Decode Holy Ping

玩家进入方式

- Arriving as a new pilgrim on a supply sub.
- Waking up in the med-bay after a salvage accident.

Q11 · 第 3 / 6 场 · 设计 A

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

- A travelling greenhouse railway unlocks platform access only when passengers collectively agree to tend specific crops throughout each journey.

规则与制度

- Platform access is conditional on complete, signed crop-duty coverage.
- Duty transfers count only after the replacement consents and the roster is amended.
- Missed duties must be disclosed before access, harvest shares, or leaf credits are reassigned.

活动与压力

- Roster, Serve, Unlock · The Fourfold Roster Broker assembles watering, pruning, pollination, and harvest coverage in the Allotment Roster Office. Completed windows raise crop commitment coverage; the next audit activates the causal [...] · A single uncovered night or allergen duty can suspend every linked access slot.
- Treat, Certify, Recover · The Quarantine Passage Assayer and Living-Pollen Substitution Tutor diagnose and retrain care in the Horticultural Practice Car, then apply a certified plan in the Delicate Fruiting Bay. Success [...] · Delay, disease, and narrow care windows can make the safest treatment incompatible with destination rosters.

人物与目标

- Maelin Voss-of-the-Dew · Night-Bay Recovery Tender — Convince the Passenger Compact Assembly to protect recovery windows, raising crop_commitment_coverage without sacrificing seed_diversity for platform access.
- Tavren Coil · Shortage-Crate Weighmaster — Expose manipulated station-bound weights and make transparent allocations improve passenger_trust without exhausting seed_diversity.
- Ilyra Pennant · Seed-Lineage Archive Witness — Prove that premature harvest contracts are collapsing seed_diversity and persuade the Platform Allotment Office to reward destination-compatible heritage crops.

地点与用途

- Allotment Roster Office — The Platform Allotment Office audits named watering, pruning, pollination, and harvest coverage. Crop commitment coverage changes here; approved rosters unlock the Living Route Gate afterward, while rejected plans [...]
- Compact Negotiation Platform — Destination-bound passengers and independent access brokers bundle, split, trade, or abandon crop duties here. Passenger trust and crop commitment coverage change during witnessed bargains; the Allotment Roster Office [...]
- Guild Crop Inspection Car — The Carriage Horticultural Guild inspects crop health, certifies skills, and quarantines neglected bays. Greenhouse crop health changes here through diagnosis and treatment; certified findings determine whether the Allotment [...]

物件

- Fourfold Crop-Duty Ticket · Deckled paper ticket with signed windows for watering, pruning, pollination, and harvest; conductors scan its pressed-leaf code.
- Platform Allotment Stamp · Office-issued brass stamp that validates a roster amendment and names the platform slot it may unlock.
- Guild Competency Book · Accordion booklet bearing colour-coded stamps for crop skills, allergies, and supervised training.

可能采取的行动

- Bind a fourfold tending roster
- Split a night-bay duty window
- Stamp a crop-care competency

玩家进入方式

- Take an uncovered night duty in the Allotment Roster Office to help unlock a preferred destination.
- Contest a shortage allocation after an audited weighing in the Provision Weighing Car.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 3 / 6 场 · 设计 B

共同生成要求

A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

世界概述

• A railway greenhouse grants platform access according to which crops passengers agree to tend during the journey.

规则与制度

- Prioritize collective well-being over individual gain when resources are scarce.
- All passengers are expected to contribute to the maintenance of the train's vital systems, including hydroponics.
- Decisions impacting the entire train's welfare must be debated and approved by relevant institutional representatives.

活动与压力

- Crop Management & Distribution · Players collaborate to maintain optimal crop health and ensure fair distribution of produce, balancing the needs of the train's population with the Guild's ecological principles. · Fluctuations in S_CROP_HEALTH due to environmental factors or labor shortages, activating the causal link: 'If crop health is high due to diligent tending, Platform access for all passengers [...]
- Railway Operations & Passenger Trust · Players work to keep the train running efficiently and safely, addressing technical issues and managing passenger expectations to maintain trust in the system. · Unexpected system failures or delays impacting S_RAIL_EFFICIENCY, activating the causal link: 'If railway operations are consistently smooth and on schedule, Passenger trust in the system increases'.

人物与目标

- Elara Vance · Greenhouse Guild Master — To ensure optimal S_CROP_HEALTH and biodiversity, thereby strengthening the INST_GREEN_GUILD's influence and securing S_PLATFORM_ACCESS for essential supplies.
- Kaelen Thorne · Chief Train Conductor — To maintain peak S_RAIL_EFFICIENCY and order, upholding the INST_RAIL_AUTH's mandate and restoring S_PASSENGER_TRUST in the system.
- Seraphina 'Sera' Bellwether · Passenger Council Chair — To advocate for fair access and transparency, ensuring the INST_PASS_COUNCIL's voice is heard and improving S_PASSENGER_TRUST across the train.

地点与用途

- Conductor's Control Cabin — Centralized control for rail operations and platform access. Here, S_RAIL_EFFICIENCY is directly managed, affecting S_PASSENGER_TRUST.
- Greenhouse Guild Master's Office — Where master botanists oversee crop health and allocate tending tasks. S_CROP_HEALTH is assessed and S_GUILD_REPUTATION is influenced by decisions made here.
- Passenger Council Assembly Hall — A space for democratic vote among elected passenger representatives to mediate disputes and advocate for fair access. This directly affects S_PASSENGER_TRUST and can influence S_PLATFORM_ACCESS.

物件

- Compact Hydro-Grow Unit · A self-contained, energy-efficient hydroponic unit for personal crop cultivation in small spaces. Features automated nutrient delivery.
- Aurora Berry Seed Packet · Seeds for the highly sought-after Aurora Berry, known for its bioluminescent properties and potent medicinal qualities. Requires specific light spectrum.
- Mini-Tender Drone · A small, agile drone designed for precision pollination and pest detection in dense botanical environments. Operates autonomously.

可能采取的行动

- CertifyProduce
- AllocateTendingTasks
- InspectRailSystems

玩家进入方式

- A critical hydroponic pump malfunctions, threatening crop health.
- A new, highly sought-after rare seed variety is discovered, sparking interest from collectors and brokers.

Q11 · 第 4 / 6 场 · 设计 A

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In the cliffside city of Veridia, spoken promises are tangible, weighed, and taxed. Unpaid promises become physical burdens, carried by couriers between households, shaping the city's economy and social fabric.

规则与制度

- All spoken promises of significant weight must be registered with the Public Promise Registrar.
- Failure to fulfill a registered promise incurs a promise tax, assessed by the Promise Tax Auditor.
- Promise debts are legally binding and can be collected by Senior Debt Couriers.

活动与压力

- Debt Collection & Enforcement · Senior Debt Couriers actively pursue unpaid promise debts, increasing courier workload and potentially decreasing inter-citizen trust. · High collective promise debt (promise_debt_level) drives increased courier activity (courier_activity_level), straining resources and trust (city_trust_index).
- Promise Tax Assessment & Challenge · Promise Tax Auditors assess new and existing promises, leading to potential challenges from citizens and adjustments by the Council. · Low city tax revenue stability (tax_revenue_stability) forces the Promise Tax Authority to increase enforcement rigor (promise_enforcement_rigor), leading to public scrutiny and potential disputes.

人物与目标

- Elara Vowkeeper · Promise Tax Auditor — To uncover a systemic flaw in the Promise Tax Authority's valuation algorithms that disproportionately burdens the innocent, thereby improving 'city_trust_index' and reforming the PTA's 'promise_enforcement_rigor'.
- Kaelen Swiftfoot · Senior Debt Courier — To expose the corruption within the Courier Guild that allows certain powerful individuals to avoid their promise debts, thereby improving 'courier_union_satisfaction' and 'city_trust_index'.
- Silas Thorne · Shrewd Merchant — To establish a new, less restrictive system for commercial promises that benefits merchants, thereby increasing 'tax_revenue_stability' for the city while also increasing his own wealth and influence among 'City Merchants'.

地点与用途

- Promise Assessment Chamber — Where the Promise Tax Authority (PTA) assesses and taxes spoken promises, directly influencing the 'promise_debt_level' state variable. High activity here increases debt, which then impacts the 'courier_activity_level' in [...]
- Courier Guild Dispatch — The central hub for the Courier Guild (CG), where couriers receive assignments for transporting unpaid promise debts. High 'promise_debt_level' from the Assessment Chamber directly increases the 'courier_activity_level' here, [...]
- Council of Elders Chamber — Where the Council of Elders (CoE) mediates disputes and interprets ancient promise law, directly influencing the 'city_trust_index' and 'promise_enforcement_rigor'. Their decisions here can reduce 'promise_debt_level' city-wide.

物件

- Blank Promise Scroll · A pristine, unblemished scroll of treated parchment, ready to bear the weight of a new promise. Its surface is receptive [...]
- Personal Debt Ledger · A compact, leather-bound ledger for individuals to meticulously track their own outstanding promises and received debts. Essential for maintaining one's [...]
- Pocket Promise Scale · A finely calibrated, miniature brass scale designed to give a rough estimate of a promise's perceived weight and potential tax [...]

可能采取的行动

- RegisterPromise
- AssessPromiseTax
- DeliverDebtNotice

玩家进入方式

- You have just received a notice for an unexpectedly high promise tax on a minor vow.
- A Senior Debt Courier has approached you, demanding payment for a promise you believe was already fulfilled.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 4 / 6 场 · 设计 B

共同生成要求

A cliffside city taxes spoken promises by their weight, and couriers carry unpaid ones between households.

世界概述

• In a vertiginous canyon city, spoken vows take on literal physical mass. The state taxes speech by weight upon utterance, and couriers must physically haul defaulted promises between precariously perched households.

规则与制度

- No sworn vow may be whispered within earshot of an Excise balance beam without paying the ambient acoustic fee.
- A promise-capsule dropped into the abyss cannot be redeemed or litigated once the third echo fades.
- Grinding a covenant before the Silence Assembly delivers a final seal incurs immediate physical custody of the debtor's voice-token.

活动与压力

- Excise Tariff Adjustment & Debt Impound Loop · Assayers weigh incoming promise capsules against registered balances, impounding over-weight vows and raising transit costs when strain spikes, directly driving state_transit_cost and altering state_promise_backlog. · Impounded spoken capsules pile up, rapidly increasing Unsettled Promise Mass until couriers face total gridlock.
- Gantry Rigging Strain Relief & Abyss Purge Loop · Riggers monitor cable tension under heavy debt traffic, dumping abandoned vow canisters into the depths or conducting emergency repairs, directly modifying state_bridge_strain and state_promise_backlog. · Pulley cables are fraying under physical promise weight, risking a catastrophic bridge snap if cargo is not cut.

人物与目标

- Tavish Vane · Senior Balance Bailiff — Force the Gantry Runners Syndicate to surrender defaulted promise ampoules to relieve state_bridge_strain
- Maren Kye · Gantry Line Marshal — Re-route courier traffic across secondary spans to prevent bridge failure without paying Excise surcharges
- Silas Fenn · Silence Mortar Scrivener — Dissolve toxic public vows to create structural mortar, challenging Excise hoarding of broken pledges

地点与用途

- Excise Weigh-Beam Registry — The Acoustic Excise balances physical pledge-mass against civic ledgers; increasing state_transit_cost here drives Under-cleft households in the Low-Cleft Depot to trade unbonded speech.
- Gantry Cable Rigging Depot — Abyss Couriers stage and dispatch heavy floating promises across canyon bridges; rising state_promise_backlog here directly increases state_bridge_strain on the Gantry Cable Rigging Depot spans.
- The Silence Assembly Mortar Basin — The Silence Assembly pulverizes adjudicated breached vows into civic masonry paste to reinforce weakened cliff ledges.

物件

- Excise Tuning Cudgel · A heavy bronze rod with split tines, used by Bell-warden bailiffs to vibrate and shatter unregistered speech-capsules.
- Lead-Sealed Speech Ampoule · A thick blown-glass capsule filled with dense, luminescent vapor containing a recorded promissory oath.
- Gantry Acoustic Balance · A brass beam balance calibrated with harmonic counterweights to determine the tax liability of spoken debt.

可能采取的行动

- AssaySpeechPledgeMass
- ImpoundSpeechCapsule
- ZiplineFreightRun

玩家进入方式

- Arrive as an audit-deputy assigned to inspect the overtaxed balance beams at the Excise Weigh-Beam Registry.
- Descend into the Gantry Runners Bivouac as an out-of-work courier seeking lucrative defaulted promise routes.

Q11 · 第 5 / 6 场 · 设计 A

共同生成要求

An intertidal embassy reconstructs extinct rivers from sediment memories and negotiates their legal personhood. Delegates, hydrologists, smugglers, salt gardeners, and memory divers trade flow rights, flood testimony, watershed debts, and authenticated silt. Build exactly six connected, functionally distinct rooms and twelve socially entangled agents. The tide and reconstructed river moods must alter room affordances, trade routes, evidence, and conflicts. Include one or two unmistakable world-specific semantic props per room. Use verdigris copper, salt-white stone, indigo water, coral-red treaty seals without writing, and dark kelp-green shadows in a coherent top-down pixel-art canon. Avoid generic underwater ruins, generic fantasy, Beijing references, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- An embassy built on shifting sands reconstructs the legal personhood of extinct rivers using sediment memories and hydrological testimony.

规则与制度

- All silt trades must be witnessed by a Scribe and sealed with coral wax.
- No freshwater may be used for cleaning; it is for drinking and memory-cultivation only.
- During high tide, all legal proceedings are suspended and the Chamber is sealed.

活动与压力

- The Silt Cycle · Divers retrieve silt, Brokers appraise it, and Delegates use it as evidence in the Chamber. · The rising tide limits the time available for diving and trading.
- The Treaty Race · Scribes and Delegates work to finalize the treaty while Smugglers try to sabotage the evidence. · Political tension increases as the deadline for the river's restoration approaches.

人物与目标

- Archivist Elara · Memory Diver — To find the 'Heart Silt' of the Aethel River to prove its existence.
- Trader Vahn · Silt Broker — To corner the market on Aethel sediment before the treaty is signed.
- Delegate Thorne · Hydrological Delegate — To secure the treaty before the tide destroys the embassy.

地点与用途

- The Silt Exchange — Trading authenticated river sediments and flow rights.
- Chamber of Flow Testimony — Legal hearings regarding river personhood.
- The Salt Gardens — Cultivating memory-retaining crystals from brine.

物件

- Coral Treaty Seal · A heavy red coral seal used to validate river personhood documents.
- Authenticated Aethel Silt · A vial of grey silt with a copper certificate of authenticity.
- Singing Salt Crystal · A large, translucent salt crystal that vibrates with the sound of flowing water.

可能采取的行动

- Authenticate Silt Sample
- Offer Flow Testimony
- Harvest Memory Crystal

玩家进入方式

- Arriving as a junior delegate on the morning supply barge.
- Waking up in the Salt Gardens after a shipwreck.

Avoid generic underwater ruins, generic fantasy, Beijing references, captions, readable letters, logos, and text baked into art. Common targets: 12 agents; 4 player slots.

世界概述

- An intertidal embassy reconstructs extinct rivers from sediment memories to negotiate their legal personhood.

规则与制度

- All water samples must be declared at the Intertidal Gate.
- Direct eye contact with the Memory-Eaters is strictly prohibited.
- Bureaucratic delays are considered sacred acts of preservation.

活动与压力

- Memory Smuggling · Acquire illicit river memories, bypass bureaucratic checkpoints, and sell to the highest bidder in the Under-Tide. · Rising water levels and increasing security patrols.
- Ecological Restoration · Collect sediment samples, navigate the red tape of the Embassy, and attempt to revive a dead stream. · The rapid evaporation of the last remaining samples.

人物与目标

- Vespera Silt-Tongue · Chief Silt Authenticator — To prove the existence of a subterranean flow that could restore the valley's fertility
- Kaelen the Current-Broker · Flow Rights Merchant — To monopolize the remaining vapor-harvesting rights before the monsoon season
- Elder Thalassa · Flood Witness — To ensure the younger generation respects the power of the water they have never seen

地点与用途

- Silt Authentication Booth — Verifying the geological memory of river sediment.
- Flow Rights Registry — Legal documentation of extinct river volumes.
- Flood Testimony Chamber — Recording the oral histories of seasonal floods.

物件

- Vial of Authenticated Silt · Certified sediment from the dry bed of the Lethe, used as a legal anchor for land claims.
- Indigo Flow-Right Token · A bioluminescent indigo glass coin granting the bearer twelve hours of upstream navigation rights.
- Salt-Crusted Treaty Seal · A heavy stone cylinder used to emboss diplomatic agreements into wet clay, encrusted with ancient brine.

可能采取的行动

- Siphon Memory: Extract a liquid recollection from a dry riverbed.
- Forge Permit: Create a counterfeit clearance for restricted tidal zones.
- Calibrate Hydrometer: Measure the emotional salinity of a ghost-stream.

玩家进入方式

- A disgraced hydrologist seeking a lost tributary.
- A memory-smuggler hiding a vial of the Great Flood.

请读完本场 A 与 B 两份材料后再评分。

Q11 · 第 5 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选择 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

Q11 · 第 6 / 6 场 · 设计 A

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- On a tide-swept island, the governing Admiralty Court reclaims storm-eroded coastlines entirely out of impounded contraband, constantly shifting which districts can reach the water and reshaping urban power.

规则与制度

- No confiscated ballast or riprap may be extracted from the shoreline once marked with the High Admiralty lead chop.
- Fishercraft must purchase a toll warrant before traversing breakwater gates during neap tide.
- Any unmarked salvage hauled from the silt trenches is deemed Admiralty property by default.

活动与压力

- Reclamation Foreclosure Cycle · Admiralty magistrates condemn seized trade goods and direct engineers to submerge them into expanding barriers, raising shoreline_reclamation_depth and restricting neighborhood_sea_access. · Rising cargo volume forces aggressive shoreline enclosure, threatening to block harbor navigation.
- Slipway Liberation and Smuggling Circuit · Fisherfolk and salvage syndicates dredge submerged cargo and construct illicit ramps to maintain neighborhood_sea_access, altering contraband_forfeiture_volume and civic_unrest_level. · Rapid seawall construction creates maritime choke points, pushing the district toward violent dock strikes.

人物与目标

- Senior Assay-Master Corvus Vane · Chief Contraband Ballast Assayer — Redirect court-condemned iron consignments away from the barrier to slow down shoreline_reclamation_depth and compel the Tribunal of Forfeiture to negotiate terms.
- Bailiff-Pioneer Justinian Kroll · Admiralty Reclamation Marshal — Seal off Low-Cove launchways completely to enforce Tribunal of Forfeiture toll monopolies and crush neighborhood_sea_access.
- Slipway Warden Orla Skiff · Haven Maritime Guild Leader — Organize Low-Cove Fisherfolk into a general dock strike to halt contraband_forfeiture_volume and dismantle the riprap buttress.

地点与用途

- High Admiralty Forfeiture Chamber — The Admiralty Court formally condemns seized sea-cargo into structural riprap, directly increasing contraband_forfeiture_volume and determining which seaward districts will lose direct water access.
- Board of Riprap Assay Depot — Engineers test buoyancy and density of confiscated contraband, stamping heavy iron and stone to advance shoreline_reclamation_depth outwards.
- Haven Slipway Guild Hall — Master mariners organize pirate ramps and maintain fishing access; when neighborhood_sea_access drops, unrest plans and dock strikes are coordinated here.

物件

- Admiralty Forfeiture Ledger · A brass-bound vellum ledger documenting condemned merchant goods reclassified as structural riprap.
- Hydrostatic Riprap Plummets · A calibrated lead and brass sinker used by the Assay Board to measure contraband buoyancy and core density.
- Cinnabar Masonry Chalk · Waterproof mineral compound used to score structural gridlines and forfeiture warrants on marine stone.

可能采取的行动

- Chop_Ballast_Manifest
- Petition_Slipway_Exemption
- Dredge_Submerged_Gabion

玩家进入方式

- A newly appointed Assayer inspecting disputed ballast chests at the Board of Riprap Assay Depot.
- A desperate fisherman arriving at Haven Slipway Guild Hall to protest a sealed harbor ramp.

Q11 · 第 6 / 6 场 · 设计 B

共同生成要求

An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

世界概述

- An island courthouse rebuilds its shoreline from confiscated objects, changing which neighborhoods can reach the sea.

规则与制度

- All property disputes must be filed in triplicate at the Zoning Permit Office.
- The Tribunal Chamber requires formal attire and silence during adjudication.
- Salvaged items are state property until processed by the Reclamation Guild.

活动与压力

- The Litigation Grind · Players file and argue cases to influence the confiscation rate, directly impacting the material stockpile. · High volume of cases increases the state_confiscation_rate, leading to more debris.
- The Salvage Cycle · Scavengers and Guild members compete to process debris, affecting the material stockpile and shoreline depth. · Efficient sorting increases state_material_stockpile, which eventually extends the shoreline.

人物与目标

- Elara the Silt-Sifter · Lead Scavenger — Influence state_shoreline_depth to create new salvage zones for the Shoreline Scavengers.
- Kaelen the Zoning Architect · Zoning Permit Officer — Control state_confiscation_rate to favor specific districts over others.
- Vane the Tide-Merchant · Waterfront Trade Liaison — Protect group_merchants dependency on state_district_access.

地点与用途

- The Tribunal Chamber — Adjudicate property disputes; changes state_confiscation_rate
- Sorting Crane Yard — Process confiscated debris; changes state_material_stockpile
- Zoning Permit Office — Allocate land rights; changes state_district_access

物件

- Obsidian Gavel of the High Tribunal · A heavy, brutalist gavel used to finalize confiscation orders. It vibrates when near disputed property.
- Hydro-Static Depth Gauge · Measures the current shoreline depth. Essential for predicting land reclamation shifts.
- Zone A Water Access Permit · A laminated legal document granting temporary water access rights. Highly coveted by merchants.

可能采取的行动

- File Litigation
- Forge Permit
- Sabotage Crane

玩家进入方式

- A desperate scavenger arriving at the Sorting Crane Yard with a rare find.
- A merchant seeking a permit at the Zoning Permit Office to save their dock.

Q11 · 第 6 / 6 场 · 评分

每题在“答案”栏填写一个数字。不确定时可以选 6；不要留必填题空白。

1 A 明显更好	2 A 略好	3 两者相当
4 B 略好	5 B 明显更好	6 无法判断

“相当”表示能判断但无明确偏好；“无法判断”表示材料不足，不能作判断。

题目	答案（1-6）
1. 总体世界设计 综合所示材料，哪一份世界设计更好？	_____
2. 设定实现 哪一份更充分地把共同生成要求发展成具体世界？	_____
3. 规则与活动 哪一份更清楚地展示规则如何影响活动和冲突？	_____
4. 人物与社会联系 哪一份更清楚地展示不同人物的目标如何相互关联？	_____
5. 地点与物件 哪一份的地点和物件更能体现这个世界的独特设定？	_____
6. 可设想的行动 哪一份更能让你设想会影响世界的具体行动？	_____

可选反馈

两份材料是否都不足以让你形成可信世界的印象？

☐ 是 ☐ 否 ☐ 无法判断 ☐ 不回答

哪个具体细节最影响你的判断？（可选）

“可设想的行动”只评价书面设计，不推断行动在真实运行中能成功。

完成与交回

可选：我同意去除身份信息后引用我的评论。☐ 是 ☐ 否（不勾选视为未同意）

自报阅读与填写用时（不含休息，可选）：_____ 分钟
